# IANCON

**33<sup>RD</sup> ANNUAL CONFERENCE OF  
INDIAN ACADEMY OF NEUROLOGY**

**2026**

**28<sup>th</sup> October 2026 - 01<sup>st</sup> November 2026**

## Welcome Message

Dear Colleagues and Friends,

It gives us immense pleasure to extend a cordial invitation to the 33rd Annual Conference of the Indian Academy of Neurology – IANCON 2026, to be held in the historic and vibrant city of Jaipur, Rajasthan under the aegis of the Neuro Welfare Society. This prestigious conference will bring together eminent academicians, researchers, and clinicians to share knowledge, foster collaboration, and advancement in the field of Neurology.

Jaipur, fondly known as the "Pink City", with its magnificent forts, royal palaces, and colorful bazaars, offers a unique blend of heritage and modernity. With its cultural grandeur and warm hospitality, Jaipur will provide the perfect backdrop for this enriching academic gathering.

The scientific program will encompass a wide spectrum of topics—from clinical insights to pioneering research—led by esteemed national and international experts. It will serve as a valuable platform to exchange ideas, nurture innovation, and highlight advancements in neurological science and patient care.

Beyond academics, IANCON 2026 will provide ample opportunities for networking, collaboration, and professional camaraderie, while also allowing you to experience the traditions, art, and vibrant culture of Rajasthan.

We warmly look forward to welcoming you to IANCON 2026 in Jaipur and your active participation in making this conference a resounding success. Together, let us celebrate the spirit of learning, discovery, and academic excellence in the heart of Jaipur.

**Dr. Dinesh Sharma**  
*Organising Chairman*

**Dr. Bhawna Sharma**  
*Organising Secretary*

## SCIENTIFIC COMMITTEE

### CHAIRPERSON

**Dr. R Lakshmi Narasimhan**

**Dr. U Meenakshisundaram**

**Dr. Sita Jayalakshmi**

**Dr. Bhawna Sharma**

**Dr. Biman Kanti Roy**

**Dr. Guhan Ramamurthy**

**Dr. Shrivarthan R**

### MEMBERS

**Dr. Arushi Gahlot Saini**

**Wednesday, 28<sup>th</sup> October 2026**

**Workshop 1**

**Hall 1**

**09:00 AM to 01:00 PM Neuromodulation - rTMS**

Conveners: **Dr. Guhan Ramamurthy, Tiruchendur & Dr. MM Arun Shivaraman, Coimbatore**  
Chairpersons: **TBA**

|                      |                                                               |                                          |
|----------------------|---------------------------------------------------------------|------------------------------------------|
| 09:00 AM to 09:10 AM | Welcome & Introduction                                        |                                          |
| 09:10 AM to 09:30 AM | Principles of rTMS & Knowing the Machine                      | Dr. Saurabh Sultania,<br>New Delhi       |
| 09:30 AM to 09:50 AM | TMS as a Probe – Measuring Cortical Excitability & Plasticity | Dr. Pawan Ojha, Mumbai                   |
| 09:50 AM to 10:10 AM | rTMS in Stroke Recovery                                       | Dr. Guhan Ramamurthy,<br>Tiruchendur     |
| 10:10 AM to 10:30 AM | rTMS in Neurology Beyond Stroke                               | Dr. M. M. Arun Shivaraman,<br>Coimbatore |
| 10:30 AM to 10:50 AM | Transcranial Direct Current Stimulation (tDCS)                | Dr. Anand Kumar, Varanasi                |
| 10:50 AM to 11:10 AM | Vagus Nerve Stimulation & Emerging Modalities                 | Dr. Vivek Misra, Chennai                 |
| 11:10 AM to 11:30 AM | Advancing rTMS Research in India                              | Dr. Nitish Kamble, Bengaluru             |

**11:30 AM to 11:45 AM Tea Break**

|                      |                                              |             |
|----------------------|----------------------------------------------|-------------|
| 11:45 AM to 12:20 PM | Hands-On Station A – rTMS   Station B – tDCS | All Faculty |
| 12:20 PM to 12:55 PM | Rotation – Station B   Station A             | All Faculty |
| 12:55 PM to 01:00 PM | Closing & Questions & Discussion             | All Faculty |

**01:00 PM to 02:00 PM Lunch Break**

**Wednesday, 28<sup>th</sup> October 2026**

**Workshop 6**

**Hall 1**

**02:00 PM to 06:00 PM      Botulinum Toxin**

Conveners: **Dr. Abhishek Srivastava, Mumbai & Dr. Ujjawal Roy, Ranchi**

Chairpersons: **TBA**

|                      |                                                                 |                                        |
|----------------------|-----------------------------------------------------------------|----------------------------------------|
| 02:00 PM to 02:10 PM | Management of Post Stroke Spasticity                            | Dr. Sampath Kumar, <i>Nellore</i>      |
| 02:10 PM to 02:20 PM | Assessment of Post Stroke Spasticity                            | Dr. Abhishek Srivastava, <i>Mumbai</i> |
| 02:20 PM to 02:30 PM | Muscles affected in Upper Limb and Dosage of Botulinum Toxin    | Dr. Nirmal Surya, <i>Mumbai</i>        |
| 02:30 PM to 02:40 PM | Muscles affected in Lower Limb and Dosage of Botulinum Toxin    | Dr. Anupam Gupta, <i>Bengaluru</i>     |
| 02:40 PM to 02:50 PM | Goal Setting                                                    |                                        |
| 02:50 PM to 03:00 PM | Evidence of Botulinum Toxin in Post Stroke Spasticity           | Dr. Salil Uppal, <i>Amritsar</i>       |
| 03:00 PM to 03:10 PM | Botulinum Toxin in Cerebral Palsy                               | Dr. Lokesh Saini, <i>Jodhpur</i>       |
| 03:10 PM to 03:50 PM | Case 1: Upper Limb Spasticity: Case Discussion & Live Injection |                                        |
| 03:50 PM to 04:30 PM | Case 2: Upper Limb Spasticity: Case Discussion & Live Injection |                                        |
| 04:30 PM to 05:10 PM | Case 3: Lower Limb Spasticity: Case Discussion & Live Injection |                                        |
| 05:10 PM to 05:50 PM | Case 4: Lower Limb Spasticity: Case Discussion & Live Injection |                                        |
| 05:50 PM to 06:00 PM | Discussion                                                      | All Faculty                            |

**Wednesday, 28<sup>th</sup> October 2026**

**Workshop 2**

**Hall 2**

**09:00 AM to 01:00 PM Neuro-Ophthalmology**

Conveners: **Dr. Aastha Takkar Kapila, Chandigarh & Dr. Vivek Lal, Chandigarh**  
Chairpersons: **TBA**

|                       |                                                                                                        |                                      |
|-----------------------|--------------------------------------------------------------------------------------------------------|--------------------------------------|
| 09:00 AM to 09:20 AM  | The Optic Disc: Reading the Disc Like an Expert – Papilledema, Pseudo papilledema & Optic Neuropathies | Dr. Karthik Vinay Mahesh, Chandigarh |
| 09:20 AM to 09:40 AM  | Visual Fields Simplified: Recognition, Localization & Common Pitfalls                                  | Dr. Virender Sachdeva, Visakhapatnam |
| 09:40 AM to 09:50 AM  | Interactive Masterclass - Visual Field Challenge                                                       | Dr. Basavaraj Tigari, Chandigarh     |
| 09:50 AM to 10:10 AM  | OCT Made Practical: RNFL, GCC and Everyday Clinical Application                                        | Dr. Aastha Takkar Kapila, Chandigarh |
| 10:10 AM to 10:30 AM  | Revisiting VEP: Interpretation, Clinical Utility & Recent Advances                                     | Dr. Abeer Goel, Chandigarh           |
| 10:30 AM to 10:35 AM  | Discussion                                                                                             |                                      |
| 10:35 AM to 10:55 AM  | Diplopia Decoded: A Bedside Approach to Ocular Misalignment                                            | Dr. Navin Jayakumar, Chennai         |
| 10: 55 AM to 11:15 AM | Painful Ophthalmoplegia: A Practical Localization Approach                                             | Dr. Vivek Lal, Chandigarh            |
| 11:15 AM to 11:20 AM  | Discussion                                                                                             |                                      |
| 11:20 AM to 11:40 AM  | Cortical Visual Disorders- What, Where, Why?                                                           | Dr. Vinny Wilson, Mumbai             |
| 11:40 AM to 12:00 PM  | Gaze                                                                                                   | Dr. Sujit Kumar, Bengaluru           |
| 12:00 PM to 12:20 PM  | Nystagmus How to Recognize, Describe & Localize                                                        | Dr. Arun Koul, New Delhi             |
| 12:20 PM to 12:25 PM  | Discussion                                                                                             |                                      |
| 12:25 PM o 12:45 PM   | Hands-on Optic Nerve Ultrasound Technique, Scanning Pearls & Clinical Applications                     | Dr. Ujjawal Roy, Ranchi              |
| 12:45 PM to 01:00 PM  | Optic nerve and Orbital Imaging for Neurology                                                          | Dr. Dinesh Khandelwal, Jaipur        |

**01:00 PM to 02:00 PM Lunch Break**

**Wednesday, 28<sup>th</sup> October 2026**

**Workshop 7**

**Hall 2**

**02:00 PM to 06:00 PM Neurosonology: TCD & Carotid Doppler**

Conveners: **Dr. Arvind Sharma, Ahmedabad & Dr. Vijay K Sharma, Singapore**  
& **Dr. Joy Vijayan, Singapore**  
Chairpersons: **TBD**

|                      |                                                                                                        |                                      |
|----------------------|--------------------------------------------------------------------------------------------------------|--------------------------------------|
| 02:00 PM to 02:15 PM | TCD Basics: Acoustic Windows, Vessel Identification & understanding Waveforms                          | Dr. Surya Narayana Sharma, Bengaluru |
| 02:15 PM to 02:30 PM | TCD in Intracranial Stenosis, Collateral Circulation & Acute Stroke                                    | Dr. Amit Kulkarni, Bengaluru         |
| 02:30 PM to 02:45 PM | TCD in Neurocritical Care: Vasospasm and Bedside Monitoring                                            | Dr. Amit Batra, New Delhi            |
| 02:45 PM to 03:00 PM | Dynamic TCD: Vasomotor Reactivity and Cerebral Autoregulation                                          | Dr. Vijay K Sharma, Singapore        |
| 03:00 PM to 03:15 PM | TCD Emboli Monitoring and Bubble Studies                                                               | Dr. Arvind Sharma, Ahmedabad         |
| 03:15 PM to 03:30 PM | Carotid Doppler: Scanning Techniques & Stenosis Grading                                                | Dr. Y Muralidhar Reddy, Hyderabad    |
| 03:30 PM to 03:45 PM | Beyond Stenosis: Carotid Plaque Characterization & Stroke Risk                                         | Dr. Methil Pradeep, Coimbatore       |
| 03:45 PM to 04:00 PM | Integration of Electrodiagnostics & Neuromuscular Ultrasound in the Diagnosis of Neuromuscular Disease | Dr. Joy Vijayan, Singapore           |
| 04:00 PM to 04:15 PM | Interesting Case Presentation in Neurosonology                                                         | Dr. Komal Kumar, Hyderabad           |
| 04:15 PM to 04:25 PM | Questions and Discussion                                                                               | All Faculty                          |

**04:25 PM to 04:40 PM Tea Break**

|                      |                   |             |
|----------------------|-------------------|-------------|
| 04:40 PM to 06:00 PM | Hands-on Workshop | All Faculty |
|----------------------|-------------------|-------------|

**Hands-on Workshop**

3 Rotating Stations, 30 Minutes / Station

**Station 1:** TCD Acoustic Windows, Vessel Identification, Waveform Acquisition, Emboli monitoring & Bubble Study Demonstrations

**Station 2:** Neuromuscular Ultrasound

**Station 3:** Carotid Doppler: Scanning Techniques, Stenosis Grading & Plaque Assessment

**Wednesday, 28<sup>th</sup> October 2026**

**Workshop 3**

**Hall 3**

**09:00 AM to 01:00 PM Neuro Otology**

Conveners: **Dr. Ajay Kumar Vats, Udaipur & Dr. N Balamurugan, Salem**

Chairpersons: **TBA**

|                      |                                                                               |                                         |
|----------------------|-------------------------------------------------------------------------------|-----------------------------------------|
| 09:00 AM to 09:30 AM | Clinical Anatomy and Physiology of the Vestibular System                      | Dr. Vishal Pawar, <i>Dubai</i>          |
| 09:30 AM to 10:00 AM | Approach to Vertigo: TiTrATE & Acute Vestibular Syndrome, with Focus on HINTS | Dr. Ajay Kumar Vats, <i>Udaipur</i>     |
| 10:00 AM to 10:20 AM | Episodic Vestibular Syndrome, Part 1: Vestibular Migraine & Ménière's Disease | Dr. Prabash Prabhakaran, <i>Chennai</i> |

**10:20 AM to 10:35 AM Tea Break**

|                      |                                                                                                                                                                                                                                                |                                   |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------|
| 10:35 AM to 11:15 AM | Episodic Vestibular Syndrome, Part 2: BPPV                                                                                                                                                                                                     | Dr. N Balamurugan, <i>Salem</i>   |
| 11:15 AM to 11:40 AM | Chronic Vestibular Syndrome                                                                                                                                                                                                                    | Dr. Sreenivas U M, <i>Chennai</i> |
| 11:40 AM to 12:10 PM | Interactive Vertigo Quiz                                                                                                                                                                                                                       | Dr. Vishal Pawar, <i>Dubai</i>    |
| 12:10 PM to 01:00 PM | HANDS-ON TRAINING<br>Station 1: Head Impulse Test (HIT)<br>Station 2: BPPV Positional Testing<br>Station 3: Posterior Canal BPPV Maneuvers<br>Station 4: Horizontal Canal BPPV Maneuvers<br>Station 5: BPPV Testing and Repositioning Practice | All Faculty                       |

**01:00 PM to 02:00 PM Lunch Break**

**Wednesday, 28<sup>th</sup> October 2026**

**Workshop 8**

**Hall 3**

**02:00 PM to 06:00 PM Evaluation of Dementia (Neuro Psychology)**

Conveners: **Dr. Suman Kushwaha, New Delhi & Dr. Deepa Avadhani, Chennai**

Chairpersons: **TBA**

|                      |                                                                       |                                  |
|----------------------|-----------------------------------------------------------------------|----------------------------------|
| 02:00 PM to 02:15 PM | Welcome and Overview                                                  | Dr. Suman Kushwaha,<br>New Delhi |
| 02:15 PM to 02:30 PM | Focused History Taking for Cognitive Symptoms                         | Dr. Deepa Avadhani, Chennai      |
| 02:30 PM to 02:50 PM | Practical Bedside Approach for Examination of Higher Mental Functions | Dr. Anu Gupta, New Delhi         |
| 02:50 PM to 03:10 PM | Understanding Behavioral and Psychological Symptoms in Dementia       | Dr. Atri Chatterjee, New Delhi   |

**03:10 PM to 03:25 PM Tea Break**

|                      |                                                                                   |                                  |
|----------------------|-----------------------------------------------------------------------------------|----------------------------------|
| 03:25 PM to 03:45 PM | Structural MRI Biomarkers Findings in Differential Diagnosis of Dementia Subtypes | Dr. Sri Ram Rajan, New Delhi     |
| 03:45 PM to 04:05 PM | Update on Fluid based Biomarkers for Early Diagnosis                              | Dr. Faheem Arshad, Bengaluru     |
| 04:05 PM to 04:25 PM | Neuropsychological Testing for Cognitive Impairment                               | Dr. Porrselvi A.P, Chennai       |
| 04:25 PM to 04:45 PM | Clinical Features to Distinguish Subtypes of Dementia                             | Dr. Suman Kushwaha,<br>New Delhi |

**04:45 PM to 05:00 PM Tea Break**

|                      |                                      |             |
|----------------------|--------------------------------------|-------------|
| 05:00 PM to 06:00 PM | Grand Discussion & Hands-on Training | All Faculty |
|----------------------|--------------------------------------|-------------|

**Wednesday, 28<sup>th</sup> October 2026**

**Workshop 4**

**Hall 4**

**09:00 AM to 01:00 PM Interventional Neurology**

Conveners: **Dr. Trilochan Srivastava, Jaipur & Dr. Gigy Kuruttukulam, Kochi**

Chairpersons: **TBA**

|                      |                                            |                                       |
|----------------------|--------------------------------------------|---------------------------------------|
| 09:00 AM to 09:25 AM | Introduction to Neurointervention          | Dr. Gigy Kuruttukulam, Kochi          |
| 09:25 AM to 09:50 AM | Vascular Access                            | Dr. Vikram Bohra, Jaipur              |
| 09:50 AM to 10:15 AM | Cath Lab Basics & Cerebral Angiography     | Dr. Kaushik Sundar, Kolkata           |
| 10:15 AM to 10:40 AM | Reading a Cerebral Angiogram               | Dr. Shripal Shah, Nashik              |
| 10:40 AM to 11:05 AM | Carotid Artery Stenting                    | Dr. T. P. Moyinal Haq, Perinthalmanna |
| 11:05 AM to 11:30 AM | Mechanical Thrombectomy & Stent Retrievers | Dr. Sunanda Anand, Mumbai             |
| 11:30 AM to 11:55 AM | Mechanical Thrombectomy & Aspiration       | Dr. Mukesh Sharma, Ahmedabad          |
| 11:55 AM to 12:20 PM | Intracranial Interventions                 | Dr. Atulabh Vajpeyee, Udaipur         |
| 12:20 PM to 12:45 PM | Beyond Stroke: Advanced Neurointervention  | Dr. Trilochan Srivastava, Jaipur      |
| 12:45 PM to 01:00 PM | Discussion                                 | All Faculty                           |

**01:00 PM to 02:00 PM Lunch Break**

**Wednesday, 28<sup>th</sup> October 2026**

**Workshop 9**

**Hall 4**

**02:00 PM to 06:00 PM Pelvic Neurological Disorders: From Neuroanatomy to Clinical Practice**

Conveners: Dr. Jalesh Panicker, *UK*

Chairpersons: TBA

|                      |                                                                    |                                              |
|----------------------|--------------------------------------------------------------------|----------------------------------------------|
| 02:00 PM to 02:05 PM | Welcome & What are Pelvic Neurological Disorders?                  | Dr. Jalesh Panicker, <i>UK</i>               |
| 02:05 PM to 02:15 PM | Autonomic Innervation – Bladder, Bowel, Sexual                     | Dr. Udit Saraf,<br><i>Thiruvananthapuram</i> |
| 02:15 PM to 02:25 PM | Central control of Pelvic Organ Function                           | Dr. Udit Saraf,<br><i>Thiruvananthapuram</i> |
| 02:25 PM to 02:35 PM | Somatic Innervation                                                | Dr. Prasad Malladi, <i>UK</i>                |
| 02:35 PM to 02:50 PM | Bladder Dysfunction                                                | Dr. Udit Saraf,<br><i>Thiruvananthapuram</i> |
| 02:50 PM to 03:05 PM | Bowel Dysfunction                                                  | Dr. Srihari Anakhindi,<br><i>New Delhi</i>   |
| 03:05 PM to 03:20 PM | Sexual Dysfunction                                                 | Dr. Reji Thomas, <i>Thiruvalla</i>           |
| 03:20 PM to 03:40 PM | Unexplained Pelvic Symptoms – When to Suspect a Neurological Cause | Dr. Jalesh Panicker, <i>UK</i>               |

**03:40 PM to 03:45 PM Tea Break**

|                      |                                                                                                            |                                                                                                                                               |
|----------------------|------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| 03:45 PM to 04:05 PM | Station 1: Urological Assessment                                                                           | Dr. Udit Saraf,<br><i>Thiruvananthapuram</i>                                                                                                  |
| 04:05 PM to 04:25 PM | Station 2: Pelvic Neurophysiology                                                                          | Dr. Prasad Malladi, <i>UK</i>                                                                                                                 |
| 04:25 PM to 04:45 PM | Station 3: Bowel Assessment                                                                                | Dr. Srihari Anakhindi,<br><i>New Delhi</i>                                                                                                    |
| 04:45 PM to 04:55 PM | NEUROGED Guidelines                                                                                        | Dr. Jalesh Panicker, <i>UK</i>                                                                                                                |
| 04:45 PM to 05:10 PM | Panel Discussion: Barriers Indian Neurologists Face to Assessing and Treating Pelvic Neurological Symptoms | Dr. P. N. Sylaja,<br><i>Thiruvananthapuram</i><br>Dr. Hrishikesh Kumar, <i>Kolkata</i><br>Chair: Dr. R. Lakshmi<br>Narasimhan, <i>Chennai</i> |
| 05:10 PM to 05:30 PM | Case 1                                                                                                     | Dr. Sruthi S. Nair,<br><i>Thiruvananthapuram</i>                                                                                              |
| 05:30 PM to 05:50 PM | Case 2                                                                                                     | Dr. Prasad Malladi, <i>UK</i>                                                                                                                 |
| 05:50 PM to 06:00 PM | Questions & Answers and Conclusion                                                                         |                                                                                                                                               |

**Wednesday, 28<sup>th</sup> October 2026**

**Workshop 5**

**Hall 5**

**09:00 AM to 01:00 PM Polysomnography / Sleep EEG to PSG**

Convener: **Dr. Manvir Bhatia, New Delhi**

Chairpersons: **TBA**

|                      |                                                          |                                                      |
|----------------------|----------------------------------------------------------|------------------------------------------------------|
| 09:00 AM to 09:05 AM | Welcome & Introduction                                   | Dr. Manvir Bhatia, <i>New Delhi</i>                  |
| 09:05 AM to 09:20 AM | Indications for Polysomnography & Types of Sleep Studies | Dr. Manvir Bhatia, <i>New Delhi</i>                  |
| 09:20 AM to 09:30 AM | Multiple Sleep Latency Test (MSLT)                       | Dr. Manvir Bhatia, <i>New Delhi</i>                  |
| 09:30 AM to 09:45 AM | Sleep Scoring: Understanding Normal Sleep                | Dr. Sapna Erat Sreedharan, <i>Thiruvananthapuram</i> |
| 09:45 AM to 10:00 AM | Scoring Respiratory Events & Periodic Limb Movements     | Dr. Jinu Johnson, <i>Kozhikode</i>                   |
| 10:00 AM to 10:15 AM | PAP Demystified: A Neurologist's Guide to OSA Management | Dr. Jinu Johnson, <i>Kozhikode</i>                   |
| 10:15 AM to 10:30 AM | Decode the PSG: From Data to Diagnosis                   | Dr. Tarun Nagpal, <i>Jabalpur</i>                    |

**10:30 AM to 10:45 AM Tea Break**

|                      |                               |             |
|----------------------|-------------------------------|-------------|

| 04:40 PM to 05:15 PM | Acute Myelopathy: The Scan that Decides             | Dr. Ashish Atre, <i>Pune</i>       |
| 05:15 PM to 05:45 PM | Neuroinflammatory Disorders                         | Dr. Sameer Vyas, <i>Chandigarh</i> |
| 05:45 PM to 05:55 PM | Panel: Five Questions Neurologists ask Radiologists | All Faculty                        |
| 05:55 PM to 06:00 PM | Post-Test, Take-Home Material & Close               | Dr. Ajay Garg, <i>New Delhi</i>    |

**Thursday, 29<sup>th</sup> October 2026**

**Hall 1**

## CME: Neuromuscular Disorders - A Comprehensive Update

08:15 AM CME Inauguration

### 08:30 AM to 10:40 AM CME Session 1

Chairpersons: TBA

|                      |                                                                         |                                             |
|----------------------|-------------------------------------------------------------------------|---------------------------------------------|
| 08:30 AM to 08:50 AM | Clinical Approach to a case of Neuromuscular Weakness                   | Dr. Satish Khadilkar, <i>Mumbai</i>         |
| 08:50 AM to 09:10 AM | Role of Imaging in Neuromuscular Diseases                               | Dr. Preethish Kumar Veeramani, <i>Salem</i> |
| 09:10 AM to 09:30 AM | Where Examination Meets Imaging- Ultrasound in Neuromuscular Disorders  | Dr. Y Muralidhar Reddy, <i>Hyderabad</i>    |
| 09:30 AM to 09:50 AM | Myasthenia Gravis - Updates on Evaluation & Treatment                   | Dr. Deepak Menon, <i>Bengaluru</i>          |
| 09:50 AM to 10:10 AM | Congenital Myasthenic Syndromes: Recent Advances & New Genotypes        | Dr. Nalini A, <i>Bengaluru</i>              |
| 10:10 AM to 10:30 AM | Limb Girdle Muscular Dystrophies – Update on Classification & Therapies | Dr. Vishnu VY, <i>New Delhi</i>             |
| 10:30 AM to 10:40 AM | Q&A                                                                     | All Faculty                                 |

**10:40 AM to 11:00 AM Tea Break**

### 11:00 AM to 01:30 PM CME Session 2

|                      |                                                                                   |                                              |
|----------------------|-----------------------------------------------------------------------------------|----------------------------------------------|
| 11:00 AM to 11:20 AM | Inflammatory Myositis : Current Concepts                                          | Dr. Seena Vengalil, <i>Bengaluru</i>         |
| 1:20 AM to 11:40 AM  | Advances in the Management of Mitochondrial Myopathies                            | Dr. Rajesh Benny, <i>Mumbai</i>              |
| 11:40 AM to 12:00 PM | Lambert Eaton Myasthenic Syndrome and Botulism                                    | Dr. Rakesh Singh, <i>Mumbai</i>              |
| 12:00 PM to 12:20 PM | Newer Therapies for Adult Onset Hereditary & Degenerative Neuromuscular Disorders | Dr. Megha Dhamne, <i>Mumbai</i>              |
| 12:20 PM to 12:40 PM | Diabetic Neuropathy– Recent Updates in Evaluation and Management                  | Dr. Sruthi S Nair, <i>Thiruvananthapuram</i> |
| 12:40 PM to 01:00 PM | CIDP Nodopathies and Paranodopathies: Concepts & Management                       | Dr. Vaibhav Wadwekar, <i>Puducherry</i>      |
| 01:00 PM to 01:20 PM | Vasculitis Related and Immune Mediated Neuropathies                               | Dr. Akshata Huddar, <i>Bengaluru</i>         |
| 01:20 PM to 01:30 PM | Q&A                                                                               | All Faculty                                  |

**Thursday, 29<sup>th</sup> October 2026**

**Hall 1**

**1:30 PM to 2:30 PM Lunch Break**

**02:30 PM to 04:00 PM SESSION 1: Changing Paradigm in Neuroinfections**

Convener: **Dr. Netravathi M, Bengaluru**  
Chairpersons: **TBA**

|                      |                                                                |                                       |
|----------------------|----------------------------------------------------------------|---------------------------------------|
| 02:30 PM to 02:45 PM | Climate Driven Shifts in Vector Borne Encephalitis             | Dr. S.Preethiswary, <i>Chennai</i>    |
| 02:45 PM to 03:00 PM | Challenges in the Treatment of CNS TB                          | Dr. Manish Modi, <i>Chandigarh</i>    |
| 03:00 PM to 03:15 PM | Advances in Diagnostics of CNS Infections                      | Dr. Gagandeep Singh, <i>Ludhiana</i>  |
| 03:15 PM to 03:30 PM | Fungal & Opportunistic CNS Infections in the Immunocompromised | Dr. Netravathi M, <i>Bengaluru</i>    |
| 03:30 PM to 03:45 PM | Changing Paradigm in HIV Neurology                             | Dr. P Satishchandra, <i>Bengaluru</i> |
| 03:45 PM to 04:00 PM | Q&A                                                            | All Faculty                           |

**04:00 PM to 04:30 PM Tea Break**

**04:30 PM to 06:00 PM SESSION 6: Five New Things**

Chairpersons: **TBA**

|                      |                                                   |                                        |
|----------------------|---------------------------------------------------|----------------------------------------|
| 04:30 PM to 04:45 PM | Five New Things in Stroke                         | Dr. Dheeraj Khurana, <i>Chandigarh</i> |
| 04:45 PM to 05:00 PM | Five New Things in Epilepsy                       | Dr. Rajesh Iyer, <i>Coimbatore</i>     |
| 05:00 PM to 05:15 PM | Five New Things in Movement Disorders             | Dr. Vinay Goyal, <i>Gurugram</i>       |
| 05:15 PM to 05:30 PM | Five New Things in Autoimmunity / Neuroimmunology | Dr. Rohit Bhatia, <i>New Delhi</i>     |
| 05:30 PM to 05:45 PM | Five New Things in Dementia & Cognitive Neurology | Dr. Biman Kanti Roy, <i>Kolkata</i>    |
| 05:45 PM to 06:00 PM | Q&A                                               | All Faculty                            |

**06:30 PM Onwards Inauguration**

**08:00 PM Onwards Rajasthani Cultural Evening**

**Thursday, 29<sup>th</sup> October 2026**

**Hall 2**

**02:30 PM to 04:00 PM SESSION 2: NORSE/ FIRES - Current Concepts**

Convener: Dr. Sita Jayalakshmi, *Hyderabad*

Chairpersons: TBA

|                      |                                                                           |                                        |
|----------------------|---------------------------------------------------------------------------|----------------------------------------|
| 02:30 PM to 02:45 PM | Early recognition of NORSE/FIRES - Clinical Presentation & Biomarkers     | Dr. Swapan Gupta, <i>New Delhi</i>     |
| 02:45 PM to 03:00 PM | Anti Seizure Medications & Anaesthetics for Refractory Status Epilepticus | Dr. Manjari Tripathi, <i>New Delhi</i> |
| 03:00 PM to 03:15 PM | Immunotherapy for NORSE - What is the Evidence So Far?                    | Dr. Sita Jayalakshmi, <i>Hyderabad</i> |
| 03:15 PM to 03:30 PM | Importance of Communication & Family Support (with illustrative cases)    | Dr. Vinayan KP, <i>Kochi</i>           |
| 03:30 PM to 03:45 PM | Long-Term Outcomes of NORSE                                               | Dr. Raghavendra BS, <i>Mangaluru</i>   |
| 03:45 PM to 04:00 PM | Q&A                                                                       | All Faculty                            |

**04:00 PM to 04:30 PM Tea Break**

**04:30 PM to 06:00 PM SESSION 7: Stroke**

Chairpersons: TBA

|                      |                                                                       |                                        |
|----------------------|-----------------------------------------------------------------------|----------------------------------------|
| 04:30 PM to 04:45 PM | Stroke Genetics: From Risk Prediction to Precision Stroke Care        | Dr. Pradeep Kumar, <i>New Delhi</i>    |
| 04:45 PM to 05:00 PM | Strange Strokes: Lessons from Atypical Presentations                  | Dr. Vikas Lakhanpal, <i>Bhatinda</i>   |
| 05:00 PM to 05:15 PM | Neuromodulation in Stroke                                             | Dr. Pawan Ojha, <i>Mumbai</i>          |
| 05:15 PM to 05:30 PM | CVT: The Grey Zones in Management                                     | Dr. Ashok Uppal, <i>Amritsar</i>       |
| 05:30 PM to 05:45 PM | Management of Haemorrhagic Transformation / ICH after IV Thrombolysis | Dr. VG Pradeep Kumar, <i>Kozhikode</i> |
| 05:45 PM to 06:00 PM | Q&A                                                                   | All Faculty                            |

**Thursday, 29<sup>th</sup> October 2026**

**Hall 3**

**02:30 PM to 04:00 PM**      **SESSION 3: Upcoming Neurologist Forum (UNF) - Hot Topics in Neurology 1**

Chairpersons: TBA

|                      |                                                                                              |                                              |
|----------------------|----------------------------------------------------------------------------------------------|----------------------------------------------|
| 02:30 PM to 02:40 PM | Newer Avenues in the Management of Super Refractory Status                                   | Dr. Samhita Panda, <i>Jodhpur</i>            |
| 02:40 PM to 02:50 PM | What to Monitor with Rituximab Therapy?                                                      | Dr. Uma Maheshwari E, <i>Chennai</i>         |
| 02:50 PM to 03:00 PM | Management of Dysautonomia                                                                   | Dr. Sushma Chandragiri, <i>Visakhapatnam</i> |
| 03:00 PM to 03:10 PM | Role of IV Antiplatelets in Cerebrovascular Diseases                                         | Dr. Biplab Das, <i>New Delhi</i>             |
| 03:10 PM to 03:20 PM | Wait... That's a Seizure?! – 10 Minutes of Fascinating Epilepsy Semiology- Epilepsy & Beyond | Dr. Harish, <i>Madurai</i>                   |
| 03:20 PM to 03:30 PM | Approach to Neurogenic Bladder                                                               | Dr. Deepak Chadha, <i>Chandigarh</i>         |
| 03:30 PM to 03:40 PM | Neurologist's Guide for Using Antidepressants                                                | Dr. Praveen Kumar Yada, <i>Hyderabad</i>     |
| 03:40 PM to 03:50 PM | Critical Illness Neuromuscular Weakness                                                      | Dr. Philo Hazeena, <i>Chennai</i>            |
| 03:50 PM to 04:00 PM | Q&A                                                                                          |                                              |

**04:00 PM to 04:30 PM**      **Tea Break**

**04:30 PM to 06:00 PM**      **SESSION 8: Immune Mediated Movement Disorders**

Convener: **Dr. Ajith Cherian, Thiruvananthapuram**

Chairpersons: TBA

|                      |                                   |                                              |
|----------------------|-----------------------------------|----------------------------------------------|
| 04:30 PM to 04:45 PM | Immune Mediated Ataxia            | Dr. Ajith Cherian, <i>Thiruvananthapuram</i> |
| 04:45 PM to 05:00 PM | Immune Mediated Chorea            | Dr. Divya M R, <i>New Delhi</i>              |
| 05:00 PM to 05:15 PM | Paraneoplastic Movement Disorders | Dr. Divya K P, <i>Thiruvananthapuram</i>     |
| 05:15 PM to 05:30 PM | Immune Mediated Parkinsonism      | Dr. Vysakha K V, <i>Thiruvananthapuram</i>   |
| 05:30 PM to 05:45 PM | Immune Mediated Dystonia          | Dr. Sanjay Pandey, <i>Faridabad</i>          |
| 05:45 PM to 06:00 PM | Q&A                               | All Faculty                                  |

**Thursday, 29<sup>th</sup> October 2026**

**Hall 4**

**02:30 PM to 04:00 PM**

**IAN - NSI Joint Symposium**

**SESSION 4: Magic Bullets: Therapeutic Updates for the Practicing Neurologist**

Convener: Dr. Kiren George Koshy, *Thiruvananthapuram*

Chairpersons: TBA

02:30 PM to 02:45 PM

Precision Medicine in Genetic Epilepsy: Where do we stand in 2026?

Dr. Vaishakh Anand, *Kochi*

02:45 PM to 03:00 PM

Targeted Therapy in Inherited Neuromuscular Disorders: The Rainbow Emerges

Dr. Mary Iype, *Thiruvananthapuram*

03:00 PM to 03:15 PM

Newer Antiseizure Medications in Women of Reproductive Age Group: Are We Ready?

Dr. Kiren George Koshy, *Thiruvananthapuram*

03:15 PM to 03:30 PM

Deep Brain Stimulation

Dr. Dwarkanath Srinivas, *Bengaluru*

03:30 PM to 03:45 PM

Extracranial Carotid Artery Dissection: A Tertiary Care Approach

Dr. Anirudh Apte, *Surat*

03:45 PM to 04:00 PM

Q&A

All Faculty

**04:00 PM to 04:30 PM**

**Tea Break**

**04:30 PM to 06:00 PM**

**SESSION 9: Vascular Anatomy & Contemporary Management of Arteriovenous Malformations**

Convener: Dr. Trilochan Srivastava, *Jaipur*

Chairpersons: TBA

04:30 PM to 04:45 PM

Lessons from Anatomy

Dr. Rahul Kumar Singh, *Patna*

04:45 PM to 05:00 PM

Management of Unruptured AVM

Dr. Trilochan Srivastava, *Jaipur*

05:00 PM to 05:15 PM

Spinal Vascular Malformations

Dr. Deep Das, *Kolkata*

05:15 PM to 05:30 PM

Management of Unruptured Aneurysms

Dr. Vineet Banga, *Faridabad*

05:30 PM to 05:45 PM

When Should a Clinician Think About AV Malformation?

Dr. Sathish Kumar V, *Chennai*

05:45 PM to 06:00 PM

Q&A

All Faculty

**Thursday, 29<sup>th</sup> October 2026**

**Hall 5**

**02:30 PM to 04:00 PM SESSION 5: Emerging & Cross-Disciplinary Frontiers in Neurology**

Chairpersons: TBA

|                      |                                                                                                   |                                          |
|----------------------|---------------------------------------------------------------------------------------------------|------------------------------------------|
| 02:30 PM to 02:45 PM | Quantum Neurology                                                                                 | Dr. D Vasudevan, <i>Chennai</i>          |
| 02:45 PM to 03:00 PM | Beyond Dopamine – Psychiatry Challenged in Parkinson's Disease                                    | Dr. P K Maheshwari, <i>Agra</i>          |
| 03:00 PM to 03:15 PM | The Next Frontier in Acute Stroke Therapy: Neuroprotection Beyond Recanalization                  | Dr. Saranya B Gomathy, <i>Puducherry</i> |
| 03:15 PM to 03:30 PM | Gravity of Aging: Exposing the Unseen Inner Ear Crisis Behind Falls - Can Aging be Postponed?     | Dr. B. Vengamma, <i>Tirupati</i>         |
| 03:30 PM to 03:45 PM | Anticoagulation in AF with Cerebral Microbleeds / Prior Bleed – Stroke Prevention vs. Haemorrhage | Dr. Debolina Mukherjee, <i>Kolkata</i>   |
| 03:45 PM to 04:00 PM | Q&A                                                                                               | All Faculty                              |

**04:00 PM to 04:30 PM Tea Break**

**04:30 PM to 06:00 PM SESSION 10: Environmental Influences on Brain Health: Emerging Threats in Neurology**

Convener: Dr. Ajay Asranna, *Bengaluru*

Chairpersons: TBA

|                      |                                                                                    |                                     |
|----------------------|------------------------------------------------------------------------------------|-------------------------------------|
| 04:30 PM to 04:45 PM | Environmental Influences in Headache                                               | Dr. Pravin Thomas, <i>Bengaluru</i> |
| 04:45 PM to 05:00 PM | Noise Exposure & Cognitive Neurology: From Attention Deficits to Neurodegeneration | Dr. MM Samim, <i>Howrah</i>         |
| 05:00 PM to 05:15 PM | Air Pollution: A Silent & Pervasive Threat to Neurologic Health                    | Dr. Ajay Asranna, <i>Bengaluru</i>  |
| 05:15 PM to 05:30 PM | Climate Change: Expanding & Evolving Impacts on Neurologic Disorders               | Dr. Debjyoti Dhar, <i>Lucknow</i>   |
| 05:30 PM to 05:45 PM | Light Pollution: Effects on Brain Function, Circadian Rhythms & Neurology          | Dr. Rutul D. Shah, <i>Ahmedabad</i> |
| 05:45 PM to 06:00 PM | Q&A                                                                                | All Faculty                         |

**Thursday, 29<sup>th</sup> October 2026**

**Hall 6**

**02:30 PM to 04:00 PM Platform Session 1**

Judges: TBD

|                      |                                                                                                                                                                                                   |                                               |
|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------|
| 02:30 PM to 02:40 PM | Evaluating the Efficacy of Combined Sensory Index (3-Test Composite Score) for the Diagnosis of Early-Stage Carpal Tunnel Syndrome.                                                               | Dr. Sangeeta Gupta,<br><i>Gorakhpur</i>       |
| 02:40 PM to 02:50 PM | Motorist's Vestibular Disorientation Syndrome: Clinical Characteristics, Vestibular Findings, and Treatment Outcomes in 24 Patients with proposed diagnostic criteria.                            | Dr. Vishal Gurunath Pawar,<br><i>Dubai</i>    |
| 02:50 PM to 03:00 PM | Subclinical Oculovestibular Abnormalities, Psychiatric Comorbidities, Disability & their association in Persistent Postural-perceptual Dizziness: A Video-oculography based Cross Sectional Study | Dr. Sanyam K Mahajan,<br><i>Lucknow</i>       |
| 03:00 PM to 03:10 PM | Efficacy & Safety of Dual-Site 1-Hz Repetitive Transcranial Magnetic Stimulation as an Adjunctive Treatment for Essential Tremor: A Randomized Sham-Controlled Study                              | Dr. Sanjeev Kumar Bhoi,<br><i>Bhubaneswar</i> |
| 03:10 PM to 03:20 PM | Incidence of Atrial Cardiopathy in Embolic Stroke of Undetermined Source and Other Stroke Etiologies at A Tertiary Care Center in South India                                                     | Dr. Hari Krishna Kambam,<br><i>Hyderabad</i>  |
| 03:20 PM to 03:30 PM | Differential Mitochondrial and Oxidative Stress Profiles in Early- and Late-Onset Parkinson's Disease                                                                                             | Dr. Vikas Lakhanpal, <i>Una</i>               |
| 03:30 PM to 03:40 PM | Assessment of Predictive Ability of High-Resolution Vessel Wall Magnetic Resonance Imaging in Acute Ischemic Stroke and Transient Ischemic Attack due to Intracranial Arterial Disease            | Dr. Edwin Stanley Rathinam,<br><i>Mumbai</i>  |
| 03:40 PM to 03:50 PM | Intracranial Atherosclerotic Disease and Cerebral Small Vessel Disease as Determinants of Cognitive Impairment in an Indian Cohort                                                                | Dr. Sarath G, <i>Hosur</i>                    |
| 03:50 PM to 04:00 PM | Acquired Neuromyotonia due to disulfiram overdose – A Case series                                                                                                                                 | Dr. Divya Kumavat, <i>Bikaner</i>             |

**Thursday, 29<sup>th</sup> October 2026**

**Hall 6**

**04:00 PM to 06:00 PM Platform Session 2**

Judges: TBD

|                      |                                                                                                                                                         |                                      |
|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------|
| 04:00 PM to 04:10 PM | A Study On Assessment of Fatigue and Its Correlates in Patients with Parkinson's Disease                                                                | Dr. Arnab Purkayastha, Kolkata       |
| 04:10 PM to 04:20 PM | A Study of Pre- & In-Hospital Factors Causing Delay Beyond the Therapeutic Window period in Acute Stroke, in a Tertiary Care Hospital.                  | Dr. Kotha Aravind, Visakhapatnam     |
| 04:20 PM to 04:30 PM | Early Integration of Palliative care in Neurological Disorders: Clinical profile, Needs and Service Utilisation Among 4000 cases                        | Prof. Priya Treasa Thomas, Bengaluru |
| 04:30 PM to 04:40 PM | The Overlap of Posterior Reversible Encephalopathy Syndrome and Reversible Cerebral Vasoconstriction Syndrome in the Postpartum Period: A Case Series   | Dr. Pradeep Lalwani, Jodhpur         |
| 04:40 PM to 04:50 PM | Utility of Whole Brain MR Spectroscopy in Mapping the Epileptic Network of Focal Cortical Dysplasia                                                     | Dr. Akshaya Janardhanan, Chennai     |
| 04:50 PM to 05:00 PM | Varied Presentations of Neurobrucellosis in Neurology: An Ambispective Observational Study from Western Rajasthan (2023–2026)                           | Dr. Kumud Sahu, Jodhpur              |
| 05:00 PM to 05:10 PM | Clinical, Radiological Profile, Delay in Diagnosis, Alternative Diagnosis Offered and Natural History of Epicrania Fugax. A Retrospective Cohort Study. | Dr. Somya Singhal, Lucknow           |
| 05:10 PM to 05:20 PM | Decadal Trends in Cerebral Venous Thrombosis in Western India: A Multicentre Retrospective Cohort Study (2014–2025)                                     | Dr. Dulari Gupta, Pune               |
| 05:20 PM to 05:30 PM | Early Caudate Dopaminergic Dysfunction Predicts Cognitive Decline in Parkinson's Disease: A Longitudinal Imaging Biomarker Study                        | Dr. Baikuntha Panigrahi, Balasore    |
| 05:30 PM to 05:40 PM | Pattern of Ischemic Stroke in Patients with Mild, Moderate, and Severe Obstructive Sleep Apnea (OSA): A 200 Patient Prospective Observational Study     | Dr. Swapnil Samadhiya, Ajmer         |
| 05:40 PM to 05:50 PM | Beyond Sicca Symptoms: Diverse Neurological Presentations of Sjögren's Syndrome                                                                         | Dr. Mridula Singh, New Delhi         |
| 05:50 PM to 06:00 PM | Spectrum of Congenital Pontine Anomalies: Clinicoradiological & Genetic Correlations From a Tertiary Care Center In South India                         | Dr. Mohana Prasad S, Karur           |

**Friday, 30<sup>th</sup> October 2026**

**Hall 1**

**07:45 AM to 08:45 AM BREAKFAST SESSION 1: Stroke**

Chairpersons: TBD

|                      |                                                         |                               |
|----------------------|---------------------------------------------------------|-------------------------------|
| 07:45 AM to 08:00 AM | Intracranial Atherosclerosis                            | Dr. Neetu Ramrakhiani, Jaipur |
| 08:00 AM to 08:15 AM | 2026 AHA Guidelines – What is New?                      | Dr. Vinit Suri, New Delhi     |
| 08:15 AM to 08:30 AM | IV Thrombolysis Beyond 4.5-Hour Window Period           | Dr. Puneet Agarwal, New Delhi |
| 08:30 AM to 08:45 AM | Stenting in Neurovascular Tree: Carotids & Intracranial | Dr. Sunanda Anand, Mumbai     |

**08:45 AM to 10:30 AM SESSION 11: Guest Lectures**

Chairpersons: TBD

|                      |                                                                                                              |                                     |
|----------------------|--------------------------------------------------------------------------------------------------------------|-------------------------------------|
| 08:45 AM to 09:10 AM | MOGAD Versus NMOSD: Beyond Superficial Similarities                                                          | Dr. Lekha Pandit, Mangaluru         |
| 09:10 AM to 09:35 AM | Personalized Medicine in Stroke Care                                                                         | Dr. Subhash Kaul, Hyderabad         |
| 09:35 AM to 10:00 AM | How Critical is Your Brain?                                                                                  | Dr. Debashish Chowdhury, New Delhi  |
| 10:00 AM to 10:25 AM | Endovascular Revascularization for Acute Ischemic Stroke: Evolving Patient Selection & Procedural Strategies | Dr. Shakir Hussain Hakim, Kozhikode |
| 10:25 AM to 10:30 AM | Q&A                                                                                                          | All Faculty                         |

**10:30 AM to 11:00 AM Tea Break**

**11:00 AM to 11:45 AM ORATION 1: NSI Presidential Oration**

Chairpersons: TBD

|                      |                                                                |                        |
|----------------------|----------------------------------------------------------------|------------------------|
| 11:00 AM to 11:05 AM | Introduction of Dr. K Sridhar                                  | TBD                    |
| 11:05 AM to 11:40 AM | When the Air Hits your Brain - Lessons from the Operating Room | Dr. K Sridhar, Chennai |
| 11:40 AM to 11:45 AM | Felicitation                                                   | TBD                    |

**Friday, 30<sup>th</sup> October 2026**

**Hall 1**

**11:45 AM to 12:30 PM ORATION 2: IAN Oration**

Chairpersons: TBA

11:45 AM to 11:50 AM Introduction of Dr. Anand Kumar A TBD

11:50 AM to 12:25 PM TBD Dr. Anand Kumar A, *Kochi*

12:25 PM to 12:30 PM Felicitation TBD

**12:30 PM to 01:30 PM SESSION 16: Guest Lectures**

Chairpersons: TBD

12:30 PM to 12:55 PM The Lessons My Patient's Taught Me Dr. U Meenakshisundaram, *Chennai*

12:55 PM to 01:20 PM Functional Neurological Disorders & Migraine Comorbidity- What Does it Teach Us? Dr. Sudhir Kothari, *Pune*

01:20 PM to 01:30 PM Q&A All Faculty

**01:30 PM to 02:30 PM Lunch Break**

**02:30 PM to 04:00 PM SESSION 17: Guest Lectures**

**IAN - NSI Joint  
Symposium**

Chairpersons: TBA

02:30 PM to 02:50 PM Inherited Ataxias: How Much is Too Much? Dr. Achal Kumar Srivastava, *New Delhi*

02:50 PM to 03:10 PM TBD Dr. Sangeeta Ravat, *Mumbai*

03:10 PM to 03:30 PM Painful Ophthalmoplegias Dr. Vivek Lal, *Chandigarh*

03:30 PM to 03:50 PM Epilepsy Surgery-Past, Present and Future Dr. George Vilanilam, *Thiruvananthapuram*

03:50 PM to 04:00 PM Q&A All Faculty

**04:00 PM to 04:30 PM Tea Break**

**Friday, 30<sup>th</sup> October 2026**

**Hall 1**

**04:30 PM to 05:15 PM AWARD SESSION 2: Prof. Ashok Panagariya Young Scientist Award 2026 & Neurorehab Initiative of the Year Award**

Chairpersons: TBA

|                      |                                                                |                                  |
|----------------------|----------------------------------------------------------------|----------------------------------|
| 04:30 PM to 04:45 PM | The Journey of a Legendary Neurologist: Prof. Ashok Panagariya | Dr. Bhawna Sharma, <i>Jaipur</i> |
| 04:45 PM to 05:00 PM | Prof. Ashok Panagariya Young Scientist Award 2026 Winner       | TBD                              |
| 05:00 PM to 05:15 PM | Neurorehab Initiative of the Year Award 26 Winner              | TBD                              |

**05:15 PM to 06:45 PM SESSION 22: Lessons Learnt During My Neurological Journey**

Chairpersons: TBA

|                      |                                                                   |                                                   |
|----------------------|-------------------------------------------------------------------|---------------------------------------------------|
| 05:15 PM to 05:35 PM | Lessons Learnt During My Neurological Journey                     | Dr. MV Padma Srivastava, <i>New Delhi</i>         |
| 05:35 PM to 05:55 PM | Stroke Despite Anticoagulation in Atrial Fibrillation: What Next? | Dr. Balaji Krishnaiah, <i>USA</i>                 |
| 05:55 PM to 06:15 PM | Lessons Learnt During My Neurological Journey                     | Dr. Mohan Madhusudanan, <i>Thiruvananthapuram</i> |
| 06:15 PM to 06:35 PM | Lessons Learnt During My Neurological Journey                     | Dr. Sarosh Katrak, <i>Mumbai</i>                  |
| 06:35 PM to 06:45 PM | Q&A                                                               | All Faculty                                       |

**07:30 PM Onwards** **Celebrity Night**

**Friday, 30<sup>th</sup> October 2026**

**Hall 2**

**08:00 AM to 09:00 AM** BREAKFAST SESSION 2: **Navigating the Spectrum of CNS Fungal Infections: Neurofungal Nexus & Beyond**

Convener: Dr. Birinder Singh Paul, *Ludhiana*

Chairpersons: TBA

|                      |                                                                     |                                          |
|----------------------|---------------------------------------------------------------------|------------------------------------------|
| 08:00 AM to 08:15 AM | The "Great Masquerader": Clinical Spectrum of CNS Fungal Infections | Dr. Birinder Singh Paul, <i>Ludhiana</i> |
| 08:15 AM to 08:30 AM | Beyond India Ink: Advances in Neuro-Diagnostic Mycology             | Dr. Prakash Pandey, <i>Lucknow</i>       |
| 08:30 AM to 08:45 AM | Antifungal Stewardship & "Difficult-to-Treat" Patient               | Dr. Nirendra Kumar Rai, <i>Bhopal</i>    |
| 08:45 AM to 09:00 AM | Neuro Brucellosis: An Update                                        | Dr. Dhanpat Kochar, <i>Bikaner</i>       |

**09:00 AM to 10:30 AM** SESSION 12: **Precision Diagnosis in Epilepsy: New Tools, New Insights & Real World Implications**

Convener: Dr. Priyanka V Kashyap, *Bhopal*

Chairpersons: TBA

|                      |                                                            |                                                |
|----------------------|------------------------------------------------------------|------------------------------------------------|
| 09:00 AM to 09:15 AM | EEG Reimagined: New Technologies & Algorithms              | Dr. Chaturbhuj Rathore, <i>Vadodara</i>        |
| 09:15 AM to 09:30 AM | Multimodal Imaging: Mapping Epileptic Networks             | Dr. Atma Ram Bansal, <i>Gurugram</i>           |
| 09:30 AM to 09:45 AM | Biomarkers in Epilepsy: From Research to Clinical Practice | Dr. Priyanka V Kashyap, <i>Bhopal</i>          |
| 09:45 AM to 10:00 AM | Critical Care EEG                                          | Dr. Neeraj Narendrakumar Baheti, <i>Nagpur</i> |
| 10:00 AM to 10:15 AM | Newer ASM - Real World Experience (3rd generation ASM)     | Dr. Renu Khamesra, <i>Udaipur</i>              |
| 10:15 AM to 10:30 AM | Q&A                                                        | All Faculty                                    |

**10:30 AM to 11:00 AM** Tea Break

**Friday, 30<sup>th</sup> October 2026**

**Hall 2**

**02:30 PM to 04:00 PM      SESSION 18 : AINA Session**

Chairpersons: TBA

|                      |                                                                                               |                         |
|----------------------|-----------------------------------------------------------------------------------------------|-------------------------|
| 02:30 PM to 02:55 PM | Expanding the Spectrum of Cerebral Amyloid Angiopathy to Isolated Chronic Subdural Hemorrhage | Dr. Santosh Murthy, USA |
| 02:55 PM to 03:20 PM | Cenobamate, a New Anti Seizure Medication                                                     | Dr. Shubhi Agrawal, USA |
| 03:20 PM to 03:45 PM | Incisionless Brain Surgery - Impact of Focused Ultrasound in Neurology                        | Dr. Rammohan Rao, USA   |
| 03:45 PM to 04:00 PM | Q&A                                                                                           | All Faculty             |

**04:00 PM to 04:30 PM      Tea Break**

**05:15 PM to 06:45 PM      SESSION 23: Evolving Concepts in Acute Ischemic Stroke Management**

Convener: Dr. Piyush Ojha, Gurugram

Chairpersons: TBA

|                      |                                                                       |                              |
|----------------------|-----------------------------------------------------------------------|------------------------------|
| 05:15 PM to 05:30PM  | 3-6-24 Rule : Anterior Circulation Stroke Screening                   | Dr. Vikram Huded, Bengaluru  |
| 05:30 PM to 05:45 PM | Stenting in Acute Stroke                                              | Dr. Anand Alurkar, Pune      |
| 05:45 PM to 06:00 PM | Posterior Circulation ASPECTS - Role of MT                            | Dr. Piyush Ojha, Gurugram    |
| 06:00 PM to 06:15 PM | Expanding Horizons for MT - Large Core MT, Medium Vessel Thrombectomy | Dr. Mukesh Sharma, Ahmedabad |
| 06:15 PM to 06:30 PM | Evolving Concept in Infective Stroke                                  | Dr. Rithvik Ramesh, Chennai  |
| 06:30 PM to 06:45 PM | Q & A                                                                 | All Faculty                  |

**Friday, 30<sup>th</sup> October 2026**

**Hall 3**

**08:00 AM to 09:00 AM BREAKFAST SESSION 3: Neurotheology & Consciousness**

Convener: **Dr. Om Prakash Prasad, Warangal**  
Chairpersons: TBD

|                      |                                |                                 |
|----------------------|--------------------------------|---------------------------------|
| 08:00 AM to 08:15 AM | Brainwave Entrainment          | Dr. Om Prakash Prasad, Warangal |
| 08:15 AM to 08:30 AM | Emotional Engineering          | Dr. Kiran Bala, Gurugram        |
| 08:30 AM to 08:45 AM | Neurology of Anger & Gratitude | Dr. Pravar Passi, Indore        |
| 08:45 AM to 09:00 AM | Neuroscience of Bhagavad Gita  | Dr. Siddharth Warriar, Mumbai   |

**09:00 AM to 10:30 AM SESSION 13: Headache Disorders: The Indian Scenario - A Case Based Approach to Management**

Convener: **Dr. Soumyadarshan Nayak, Cuttack**  
Chairpersons: TBA

|                      |                                                                     |                                  |
|----------------------|---------------------------------------------------------------------|----------------------------------|
| 09:00 AM to 09:15 AM | Migraine Management: A Paradigm Shift? What's New                   | Dr. Sumit Singh, Gurugram        |
| 09:15 AM to 09:30 AM | Tension Type Headache – How to Tame the Giant                       | Dr. Ashish Duggal, New Delhi     |
| 09:30 AM to 09:45 AM | TACs with TIC : How to Diagnose?                                    | Dr. Sanjay Prakash, Vadodara     |
| 09:45 AM to 10:00 AM | Sitting on Time Bombs in Headache Disorders                         | Dr. Soumyadarshan Nayak, Cuttack |
| 10:00 AM to 10:15 AM | "CHAKKAR" in a Headache Clinic: An Approach to Vertiginous Migraine | Dr. Gunjan Kumar, Patna          |
| 10:15 AM to 10:30 AM | Q&A                                                                 | All Faculty                      |

**10:30 AM to 11:00 AM Tea Break**

**Friday, 30<sup>th</sup> October 2026**

**Hall 3**

**02:30 PM to 04:00 PM** **SESSION 19: Upcoming Neurologist Forum (UNF) - Hot Topics in Neurology 2**

Chairpersons: TBD

|                      |                                                                         |                                               |
|----------------------|-------------------------------------------------------------------------|-----------------------------------------------|
| 02:30 PM to 02:40 PM | Neurological Emergencies in Parkinsonism                                | Dr. Jaslovleen Kaur, <i>Mohali</i>            |
| 02:40 PM to 02:50 PM | Mitochondrial Cocktail                                                  | Dr. Agam Jain, <i>Shamli</i>                  |
| 02:50 PM to 03:00 PM | Plasmapheresis Before Thymectomy in Myasthenia Gravis - Role & Evidence | Dr. Lakshmanan S, <i>Chennai</i>              |
| 03:00 PM to 03:10 PM | Dopamine Responsive Dystonia - Spectrum & Pathogenesis                  | Dr. Sivaroja Yellaturi, <i>Hyderabad</i>      |
| 03:10 PM to 03:20 PM | Vertical Misaligned Eyes - CN IV Paresis vs Skew                        | Dr. Jasodhara Chaudhuri, <i>Kolkata</i>       |
| 03:20 PM to 03:30 PM | CAR-T cell Therapy in Neuromuscular Disorders                           | Dr. Sri Sai Srujana Puppala, <i>Hyderabad</i> |
| 03:30 PM to 03:40 PM | Interventions in Headache - Options & Evidences                         | Dr. Deepa Avadhani, <i>Chennai</i>            |
| 03:40 PM to 03:50 PM | Long Read Sequencing in Neuromuscular Disorders                         | Dr. Saraswati Nashi, <i>Bengaluru</i>         |
| 03:50 PM to 04:00 PM | Q&A                                                                     | All Faculty                                   |

**04:00 PM to 04:30 PM** **Tea Break**

**05:15 PM to 06:45 PM** **SESSION 24: Precision in Peripheral Neuropathy : Deciphering the Nuances of Inflammatory Neuropathies**

Convener: Dr. Sarath Menon, *Kochi*

Chairpersons: TBA

|                      |                                                                                            |                                     |
|----------------------|--------------------------------------------------------------------------------------------|-------------------------------------|
| 05:15 PM to 05:30 PM | Rational Interpretation of Electrophysiology & Autoantibodies                              | Dr. Aditya Nair, <i>Vellore</i>     |
| 05:30 PM to 05:45 PM | Diagnostic Value & Utility of Neuroimaging (Role of MRI in Peripheral Neuropathy)          | Dr. Sarath Menon, <i>Kochi</i>      |
| 05:45 PM to 06:00 PM | Optimising Treatment Strategies in Refractory Inflammatory Neuropathies - Current Scenario | Dr. Madhu Nagappa, <i>Bengaluru</i> |
| 06:00 PM to 06:15 PM | Novel Therapies & the Future of Inflammatory Neuropathies                                  | TBD                                 |
| 06:15 PM to 06:30 PM | AI in Neuropathy / Confocal Microscopy in Neuropathy                                       | Dr. N. Tamil Pava, <i>Chennai</i>   |
| 06:30 PM to 06:45 PM | Q&A                                                                                        | All Faculty                         |

**Friday, 30<sup>th</sup> October 2026**

**Hall 4**

**08:00 AM to 09:00 AM** **BREAKFAST SESSION 4: Time to get in SyNC (Symptomatic non-Stenotic Carotid Disease) with Stroke**

Convener: **Dr. Agrata Sharma, Bhopal**

Chairpersons: TBD

|                      |                                                                                   |                                           |
|----------------------|-----------------------------------------------------------------------------------|-------------------------------------------|
| 08:00 AM to 08:15 AM | Diagnostic Criterion of Symptomatic non-Stenotic Carotid Disease                  | Dr. Agrata Sharma, <i>Bhopal</i>          |
| 08:15 AM to 08:30 AM | Carotid Plaque Imaging in ESUS & SyNC                                             | Dr. Senthil Kumar, <i>Chennai</i>         |
| 08:30 AM to 08:45 AM | SyNC (Symptomatic non-stenotic carotid disease): Stroke Risk & Medical Management | Dr. Biswamohan Mishra, <i>Bhubaneswar</i> |
| 08:45 AM to 09:00 AM | Carotid revascularization in SyNC (Symptomatic non-Stenotic Carotid Disease)      | Dr. Aman Kumar, <i>Gurugram</i>           |

**09:00 AM to 10:30 AM** **SESSION 14: Advances in Vestibular Disorders**

Convener: **Dr. Vishal Pawar, Dubai**

Chairpersons: TBA

|                      |                                                                                       |                                       |
|----------------------|---------------------------------------------------------------------------------------|---------------------------------------|
| 09:00 AM to 09:15 AM | Vestibulometry: Instrumental Diagnosis of Vertigo                                     | Dr. Pradeep Yuvaraj, <i>Bengaluru</i> |
| 09:15 AM to 09:30 AM | Vestibular Migraine: Current Concepts & Evolving Management                           | Dr. N Balamurugan, <i>Salem</i>       |
| 09:30 AM to 09:45 AM | Persistent Postural-Perceptual Dizziness (PPPD): Recognition & Multidisciplinary Care | Dr. Vishal Pawar, <i>Dubai</i>        |
| 09:45 AM to 10:00 AM | Central Vestibular Disorders & Stroke-Related Vertigo                                 | Dr. Sreenivas U M, <i>Chennai</i>     |
| 10:00 AM to 10:15 AM | Innovations in Vestibular Rehabilitation & Outcome Assessment                         | Dr. Darshpreet Kaur, <i>Patna</i>     |
| 10:15 AM to 10:30 AM | Q&A                                                                                   | All Faculty                           |

**10:30 AM to 11:00 AM** **Tea Break**

**Friday, 30<sup>th</sup> October 2026**

**Hall 4**

**02:30 PM to 04:00 PM**      **SESSION 20 : Neurological Signs**

Convener: **Dr. Seepana Gopi, Visakhapatnam**

Chairpersons: TBD

|                      |                                                     |                                      |
|----------------------|-----------------------------------------------------|--------------------------------------|
| 02:30 PM to 02:45 PM | Signs of "Cervicomedullary Junction"                | Dr. Seepana Gopi,<br>Visakhapatnam   |
| 02:45 PM to 03:00 PM | "The Hand" as a Neurological Map                    | Dr. Mahendra J. V, Bengaluru         |
| 03:00 PM to 03:15 PM | The "Functional vs. Organic" Bedside Toolkit        | Dr. Chithra P,<br>Thiruvananthapuram |
| 03:15 PM to 03:30 PM | Cortical Sensory Signs: The Forgotten Parietal Exam | Dr. Radha Mahadevan,<br>Tirunelveli  |
| 03:30 PM to 03:45 PM | Clinical Signs of Corpus Callosum Disorders         | Dr. K. Mugundhan, Chennai            |
| 03:45 PM to 04:00 PM | Q&A                                                 | All Faculty                          |

**04:00 PM to 04:30 PM**      **Tea Break**

**05:15 PM to 06:45 PM**      **SESSION 25: Artificial Intelligence in Neurology**

Convener: **Dr. Dulari Gupta, Pune**

Chairpersons: TBD

|                      |                                                           |                                       |
|----------------------|-----------------------------------------------------------|---------------------------------------|
| 05:15 PM to 05:30 PM | Basics of Artificial Intelligence for the Lay Neurologist | Dr. Vinny Wilson, Mumbai              |
| 05:30 PM to 05:45 PM | Regulatory Steps in AI                                    | Dr. Divyani Garg, New Delhi           |
| 05:45 PM to 06:00 PM | Interpretable AI in the Clinic                            | Dr. Rahul Kulkarni, Pune              |
| 06:00 PM to 06:15 PM | Commercially Available AI Tools for Neurology             | Dr. MM Arun Shivaraman,<br>Coimbatore |
| 06:15 PM to 06:30 PM | Neurological Research Using AI in India                   | Dr. Dulari Gupta, Pune                |
| 06:30 PM to 06:45 PM | Q&A                                                       | All Faculty                           |

**Friday, 30<sup>th</sup> October 2026**

**Hall 5**

**08:00 AM to 09:00 AM BREAKFAST SESSION 5: Artificial Intelligence, Wearables & Digital Neurology: Ready for Indian Practice?**

Convener: **Lt. Col. (Dr.) Jitender Sharma, New Delhi**  
Chairpersons: TBD

|                      |                                                                                    |                                           |
|----------------------|------------------------------------------------------------------------------------|-------------------------------------------|
| 08:00 AM to 08:15 AM | Artificial Intelligence, Wearables & Digital Neurology: Ready for Indian Practice? | Lt. Col. (Dr.) Jitender Sharma, New Delhi |
| 08:15 AM to 08:30 AM | Digital Innovation in Epilepsy                                                     | Dr. Inder Puri, Bikaner                   |
| 08:30 AM to 08:45 AM | From Artificial Intelligence to Connected Neurological Care                        | Dr. Reenu Chaudhary, Jodhpur              |
| 08:45 AM to 09:00 AM | AI Digital Innovation in Headache                                                  | Dr. B.K. Gupta, New Delhi                 |

**09:00 AM to 10:30 AM SESSION 15: Movement Disorders & Botulinum Toxin**

Convener: **Dr. Abhishek Wankar, Nagpur**  
Chairpersons: TBA

|                      |                                                       |                                         |
|----------------------|-------------------------------------------------------|-----------------------------------------|
| 09:00 AM to 09:15 AM | Role of Botulinum Toxin in Difficult-to-Treat Tremors | Dr. Kartika Gulati, Gurugram            |
| 09:15 AM to 09:30 AM | Tremor & Dystonia in Spinocerebellar Ataxia           | Dr. Adreesh Mukherjee, Kolkata          |
| 09:30 AM to 09:45 AM | Botulinum Toxin in Parkinsonian Syndromes             | Dr. Abhishek Wankar, Nagpur             |
| 09:45 AM to 10:00 AM | Botulinum Toxin in Trigeminal Neuralgia               | Dr. Arunmozhimaran Elavarasi, New Delhi |
| 10:00 AM to 10:15 AM | Botulinum Toxin in Tics                               | Dr. Dhruv Batra, Nagpur                 |
| 10:15 AM to 10:30 AM | Q&A                                                   | All Faculty                             |

**10:30 AM to 11:00 AM Tea Break**

**Friday, 30<sup>th</sup> October 2026**

**Hall 5**

**02:30 PM to 04:00 PM**      **SESSION 21: Genetic Testing 101 for Clinicians**

Chairpersons: TBD

|                      |                                                                        |                                         |
|----------------------|------------------------------------------------------------------------|-----------------------------------------|
| 02:30 PM to 02:45 PM | Fundamentals of Genetic Testing                                        | Dr. Gautham Arunachal, <i>Bengaluru</i> |
| 02:45 PM to 03:00 PM | Phenotypic-Genotypic Nuances while Ordering Genetic Testing            | Dr. Jacky Ganguly, <i>Kolkata</i>       |
| 03:00 PM to 03:15 PM | Making Sense of the Genetic Report                                     | Dr. Vikram V Holla, <i>Bengaluru</i>    |
| 03:15 PM to 03:30 PM | Genetic Counselling                                                    | Dr. Sneha D Kamath, <i>Bengaluru</i>    |
| 03:30 PM to 03:45 PM | SMA Therapies - Head to Head - Nusinersen vs Risdiplam vs Gene Therapy | Dr. Sheffali Gulati, <i>New Delhi</i>   |
| 03:45 PM to 04:00 PM | Q&A                                                                    | All Faculty                             |

**04:00 PM to 04:30 PM**      **Tea Break**

**05:15 PM to 06:45 PM**      **SESSION 26: Rare Diseases**

Convener: **Dr. R Pazhani, Chennai**

Chairpersons: TBD

|                      |                                                                     |                                       |
|----------------------|---------------------------------------------------------------------|---------------------------------------|
| 05:15 PM to 05:30PM  | Challenges of Living with Rare Neurological Disorders               | Dr. K Bhanu, <i>Chennai</i>           |
| 05:30 PM to 05:45 PM | Recent Advances in Huntington's Disease                             | Dr. Pettarusp Wadia, <i>Mumbai</i>    |
| 05:45 PM to 06:00 PM | Recent Advances in the Management of Motor Neurone Disease          | Dr. N S Sampath Kumar, <i>Nellore</i> |
| 06:00 PM to 06:15 PM | Ethical Issues in Rare Neurological Disorders                       | Dr. M A Aleem, <i>Trichy</i>          |
| 06:15 PM to 06:30 PM | IgG4 Related Disorders & Other Rare (Newer) Immunological Disorders | Dr. Justin C, <i>Madurai</i>          |
| 06:30 PM to 06:45 PM | Q&A                                                                 | All Faculty                           |

**Friday, 30<sup>th</sup> October 2026**

**Hall 6**

**08:00 AM to 09:00 AM Platform Session 3**

Judges: TBD

|                      |                                                                                                                                                                  |                                             |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------|
| 08:00 AM to 08:10 AM | Spectrum of Epileptic Channelopathies in Children - A Prospective single-centre Study with Precision Therapy Outcomes in a Tertiary care Hospital in South India | Dr. Gladwin Daniel A, Chennai               |
| 08:10 AM to 08:20 AM | Peripheral Neuropathy: Clinical Profile, Electrophysiological Classification, and Quality-of-Life Outcomes in Diabetic Neuropathy at a Tertiary Care Centre      | Dr. Shubham Sunil Jagtap, Karad             |
| 08:20 AM to 08:30 AM | A Crucial Role of NLRP3 Inflammasome-alarmin Axis in the Immunopathogenesis of Myasthenia Gravis: A clinical and Immunological Correlative Study.                | Dr. Nitin Makkhan Agrawal, Nagpur           |
| 08:30 AM to 08:40 AM | Language-Specific Linguistic Markers in Bengali-Speaking Patients with Alzheimer's Disease: A Comparison of Patients with and without Logopenic Aphasia          | Ms. Arpita Roy Choudhury, Kolkata           |
| 08:40 AM to 08:50 AM | Plasma Biomarkers for the Diagnosis of MCI and Alzheimer's Disease in an Indian Cohort: Quanterix SIMOA panel                                                    | Dr. Sahil Mathur, Bengaluru                 |
| 08:50 AM to 09:00 AM | Study of CLINICO-Investigative Characteristics, Treatment and Outcomes in Paraneoplastic Neurological Syndromes in a Tertiary Care Centre.                       | Dr. Nelabhotla Sai Satya Saranya, Hyderabad |

**09:00 AM to 10:30 AM Platform Session 4**

Judges: TBD

|                      |                                                                                                                                                       |                                   |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------|
| 09:00 AM to 09:10 AM | A Sympathetic Heart Weeps for the Brain: Neuro-cardiopulmonary Manifestations of Acute Insular Cortex Infarction                                      | Dr. Gampa Nikhil Kumar, Kamareddy |
| 09:10 AM to 09:20 AM | Karnataka State Action Plan for dementia and Other Neurodegenerative Disorders as a district-level model from policy to community                     | Dr. Suvarna Alladi, Bengaluru     |
| 09:20 AM to 09:30 AM | Headache and TIA in Large Vessel Intracranial Arteriopathies                                                                                          | Dr. Bhavana Chanda, Guntur        |
| 09:30 AM to 09:40 AM | Yoga Nidra for Insomnia Symptoms: A Systematic Review and Meta-analysis of Case Reports.                                                              | Dr. Anupama Gupta, New Delhi      |
| 09:40 AM to 09:50 AM | When the Aorta Masquerades as a Neurological Emergency: Cerebral Infarction, Spinal Ischemia, & Thrombolysed Stroke in Acute Type A Aortic Dissection | Dr. Adhiraj Singh, Jaipur         |
| 09:50 AM to 10:00 AM | A Rare Case of Longitudinally Extensive Transverse Myelitis in Scrub Typhus                                                                           | Dr. Rishabh Kapoor, Moradabad     |

**Friday, 30<sup>th</sup> October 2026**

**Hall 6**

|                      |                                                                                                                                                                                                                                               |                                             |
|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------|
| 10:00 AM to 10:10 AM | Association of Pre and Postnatal risk factors with Autism Spectrum Disorder and its severity- A hospital based study                                                                                                                          | Dr. Suprabha Shukla, <i>Cuttack</i>         |
| 10:10 AM to 10:20 AM | Perfusion Imaging with Arterial Spin Labelling (ASL) Findings in Hyperglycaemic Seizures: A Clinico-Radiological Observational Study                                                                                                          | Dr. Vishal Chandra Sharma, <i>Bengaluru</i> |
| 10:20 AM to 10:30 AM | Real-World Effectiveness & Safety of Rituximab in Demyelinating Disorders from a High-Volume Tertiary Care Center with State-Supported Access to Therapy: Insights into Vaccination Practices & Differential Response Across Disease Subtypes | Dr. Shikha Agarwal, <i>Jaipur</i>           |

**01:30 PM to 02:20 PM Award Session 1: Prof. Zaheer Sayeed Award for Best Paper in Clinical Neurophysiology**

Judges: TBD

|                      |                                                                                                                                                            |                                            |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------|
| 01:30 PM to 01:40 PM | Ipsilateral Pre-Ictal Posterior Alpha Rhythm Attenuation: A Highly Specific Marker of Seizure Lateralization in Temporal Lobe Epilepsy                     | Dr. Mitosha Do Carmo Carvalho, <i>Raia</i> |
| 01:40 PM to 01:50 PM | Neurophysiological Characterization of Cortical Excitability in Early-Onset Parkinson's Disease – Exploring the conundrum from a prospective cohort study. | Dr. Subhajit Roy, <i>Bengaluru</i>         |
| 01:50 PM to 02:00 PM | Electrophysiological Evaluation of Cancer Chemotherapy-Induced Peripheral Neuropathy: An NCS-Based Observational Study                                     | Mr. Sadiq Basha A, <i>Chennai</i>          |
| 02:00 PM to 02:10 PM | Incremental Diagnostic Yield of Extended EEG Compared with Routine 30-Minute EEG: A Retrospective Observational Study                                      | Dr. Divya Nagabushana, <i>Bengaluru</i>    |
| 02:10 PM to 02:20 PM | Correlation of Clinical Severity with Electrophysiological Findings in Carpal Tunnel Syndrome                                                              | Ms. Kiruthika Vijayakumar, <i>Salem</i>    |

**02:30 PM to 04:30 PM Platform Session 5**

Judges: TBD

|                      |                                                                                                                  |                                                |
|----------------------|------------------------------------------------------------------------------------------------------------------|------------------------------------------------|
| 02:30 PM to 02:40 PM | Factors Determining Reperfusion Therapies and Outcome in Extended Time Window in Acute Ischemic Stroke           | Dr. Pasupunuri Sukrit, <i>Hyderabad</i>        |
| 02:40 PM to 02:50 PM | The Clinical Spectrum and Outcome of Patients with Functional Movement Disorders                                 | Dr. Navdeep Kaur Mann, <i>Ludhiana</i>         |
| 02:50 PM to 03:00 PM | Differential Brain Volumetric Changes in NMOSD and MOGAD Using Synthetic MRI: A Cross-Sectional Study from India | Dr. Tanya Banerjee, <i>Chandigarh</i>          |
| 03:00 PM to 03:10 PM | A Study on Relation Between Level of Education with Disease Onset and Severity in Parkinsons Disease             | Dr. Yaswanth Chowdhary Raavi, <i>Hyderabad</i> |

**Friday, 30<sup>th</sup> October 2026**

**Hall 6**

|                      |                                                                                                                                                                                                                                                                     |                                                |
|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------|
| 03:10 PM to 03:20 PM | Pontine Warning Syndrome: Clinical Spectrum, Fluctuating Hemiparesis, & Therapeutic Challenges – A Case Series of Two Patients                                                                                                                                      | Dr. Shishir Pandey, <i>New Delhi</i>           |
| 03:20 PM to 03:30 PM | Beyond the Meninges: Recurrent Bacterial Meningitis Revealing Endocarditis                                                                                                                                                                                          | Dr. Komal Komal, <i>Faridabad</i>              |
| 03:30 PM to 03:40 PM | Clinicoradiological and Biochemical Correlates of Wilson's Disease: Experience from a Tertiary Care Centre in North-East India                                                                                                                                      | Dr. Sangita Deka, <i>Guwahati</i>              |
| 03:40 PM to 03:50 PM | Study of Clinical Profile and Outcome Of Combined Immunotherapies (Intravenous Immunoglobulin & Prednisolone) In Patients of Chronic Inflammatory Demyelinating Polyradiculoneuropathy: A Retrospective Cohort Study at Tertiary Care Hospital In Western Rajasthan | Dr. Nidhi Yadav, <i>Jodhpur</i>                |
| 03:50 PM to 04:00 PM | Spectrum Of Paediatric Primary Monoamine Neurotransmitter-Related Disorders - A Single-Center Ambispective Observational Study In A Tertiary Care Hospital In South India.                                                                                          | Dr. Shree Shruthi Badrinath, <i>Puducherry</i> |
| 04:00 PM to 04:10 PM | Lost in Plain Sight: Posterior Cortical Atrophy from an Indian Tertiary Care Registry                                                                                                                                                                               | Dr. Prathima A R, <i>Bengaluru</i>             |
| 04:10 PM to 04:20 PM | Assessment of Cerebral Hemodynamic Indices Using Transcranial Doppler as Early Predictors of Clinical Outcome in Hemorrhagic Stroke                                                                                                                                 | Dr. Prasanna Kumar Reddy G.L., <i>Kadapa</i>   |
| 04:20 PM to 04:30 PM | Seizure Risk In Cerebral Venous Sinus Thrombosis: Predictors From a Prospective Cohort                                                                                                                                                                              | Dr. Nitish Gopal Balla, <i>Visakhapatnam</i>   |

**05:15 PM to 06:45 PM Platform Session 6**

Judges: TBD

|                      |                                                                                                                                                                                                  |                                               |
|----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------|
| 05:15 PM to 05:25 PM | Comparison of ethambutol versus streptomycin during the intensive phase in treatment of tuberculous meningitis: An open label randomized clinical trial.                                         | Dr. Mritunjai Kumar Singh, <i>Rishikesh</i>   |
| 05:25 PM to 05:35 PM | Nerve Conduction Studies in Rheumatoid Arthritis                                                                                                                                                 | Dr. Deeksha Chaudhary, <i>Rohtak</i>          |
| 05:35 PM to 05:45 PM | Guillain–Barré Syndrome and Its Correlation with Elevated Serum Creatine Kinase (CK) Levels: A Prospective Study                                                                                 | Dr. Anand Kumar, <i>Varanasi</i>              |
| 05:45 PM to 05:55 PM | Study of Serum Ferritin Levels as a Prognostic Marker in cases of Acute Ischemic Stroke: Based on its Correlation with Glasgow Coma Scale and National Institutes of Health Stroke Scale Scores. | Dr. Shruti Shamrao Baradkar, <i>Ambajogai</i> |

**Friday, 30<sup>th</sup> October 2026**

**Hall 6**

|                      |                                                                                                                                                                            |                                             |
|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------|
| 05:55 PM to 06:05 PM | Spectrum of Cognitive Impairment and Behavioural Issues in Myotonic Dystrophy: Preliminary Observations from an Ongoing Study                                              | Dr. Debolina Kumar, <i>Kolkata</i>          |
| 06:05 PM to 06:15 PM | Clinical Profile and Factors Associated with Myasthenic Crisis and Impending Crisis in Myasthenia Gravis: A Retrospective Study from a Tertiary Care Centre in South India | Dr. Akil Kumar Reddy V, <i>Sindhanur</i>    |
| 06:15 PM to 06:25 PM | Efficacy and Safety of Transcranial Brain Stimulation protocols in chronic Ischemic Stroke: A Randomised Clinical Trial                                                    | Dr. Sunil K Narayan, <i>Puducherry</i>      |
| 06:25 PM to 06:35 PM | KaraMetrics: A Novel Modular Sensor System Enabling Real-Time, Multidimensional Evaluation of Post-Stroke Hand Recovery                                                    | Dr. Subasree Ramakrishnan, <i>Bengaluru</i> |
| 06:35 PM to 06:45 PM | The Great Pretenders: A Case Series of Six Uncommon Causes and Mimics of Longitudinally Extensive Myelopathy                                                               | Dr. Nithya Periyasamy, <i>Chennai</i>       |

**Saturday, 31<sup>st</sup> October 2026**

**Hall 1**

**08:00 AM to 09:00 AM** BREAKFAST SESSION 6: **Neurologists for 2047: Reappraising Neurology Education in an AI, Genomics & Neurotechnology-Driven Era**  
Convener: Dr. Sulena, Faridkot  
Chairpersons: TBA

|                      |                                                                   |                              |
|----------------------|-------------------------------------------------------------------|------------------------------|
| 08:00 AM to 08:15 AM | Clinical Competencies for 2047: What Must Neurologists Master?    | Dr. Sulena, Faridkot         |
| 08:15 AM to 08:30 AM | The Essential Dozen : Core Competencies for AI-Augmented Practice | Dr. Madhuparna Paul, Kolkata |
| 08:30 AM to 08:45 AM | Teaching What Cannot Be Googled : Pedagogy for Complex Cognition  | Dr. Amit Dev, Kota           |
| 08:45 AM to 09:00 AM | The Assessment Crisis : What We Measure vs. What Matters          | Dr. Parul Dubey, Goa         |

**09:00 AM to 10:30 AM** SESSION 27: **Guest Lectures**

Chairpersons: TBD

|                      |                                                                     |                                      |
|----------------------|---------------------------------------------------------------------|--------------------------------------|
| 09:00 AM to 09:20 AM | Evolving Landscape in Autoimmune Neurological Disorders (AND)       | Dr. Man Mohan Mehndiratta, New Delhi |
| 09:20 AM to 09:40 AM | The Landmark Trials of The Past Year That Will Change Your Practice | Dr. Kameshwar Prasad, New Delhi      |
| 09:40 AM to 10:00 AM | Unmet Needs & Changing Paradigms in Myasthenia Gravis Treatment     | Dr. Ashok Verma, USA                 |
| 10:00 AM to 10:20 AM | TBD                                                                 | Dr. Nirmal Surya, Mumbai             |
| 10:20 AM to 10:30 AM | Q & A                                                               | All Faculty                          |

**10:30 AM to 11:00 AM** Tea Break

**11:00 AM to 11:45 AM** ORATION 3: **Dr. Anupam Das Gupta Oration**

Chairpersons: TBD

|                      |                                                                                            |                                  |
|----------------------|--------------------------------------------------------------------------------------------|----------------------------------|
| 11:00 AM to 11:05 AM | Introduction of Dr. Thyagarajan Subramanian                                                | TBD                              |
| 11:05 AM to 11:40 AM | Hemispheric Dominance and its Role in Disease Vulnerability - from Biology to Therapeutics | Dr. Thyagarajan Subramanian, USA |
| 11:40 AM to 11:45 AM | Felicitation                                                                               | TBD                              |

**Saturday, 31<sup>st</sup> October 2026**

**Hall 1**

**11:45 AM to 12:30 PM ORATION 4: Presidential Oration**

Chairpersons: TBD

|                      |                                          |                                             |
|----------------------|------------------------------------------|---------------------------------------------|
| 11:45 AM to 11:50 AM | Introduction of Dr. R Lakshmi Narasimhan | Dr. Guhan Ramamurthy,<br><i>Tiruchendur</i> |
| 11:50 AM to 12:25 PM | TBD                                      | Dr. R Lakshmi Narasimhan,<br><i>Chennai</i> |
| 12:25 PM to 12:30 PM | Felicitation                             | TBD                                         |

**12:30 PM to 01:30 PM SESSION 32: Guest Lectures**

Chairpersons: TBD

|                      |                                                            |                                   |
|----------------------|------------------------------------------------------------|-----------------------------------|
| 12:30 PM to 12:55 PM | 10 Golden Rules to Excel as a Specialist                   | Dr. Sudhir Shah, <i>Ahmedabad</i> |
| 12:55 PM to 01:20 PM | Role of Auto - Antibody Testing in Autoimmune Neuropathies | Dr. Kavitha Grover, <i>USA</i>    |
| 01:20 PM to 01:30 PM | Q&A                                                        | All Faculty                       |

**01:30 PM to 02:00 PM Lunch Break**

**02:00 PM to 04:30 PM SESSION 33: General Body Meeting**

**04:30 PM to 06:00 PM SESSION 34: BAR-B-Q 2026**

Quiz Masters: Dr. Shripad Pujari, *Pune* | Dr. Ayush Agarwal, *New Delhi* | Dr. Karthik V M,  
*Chandigarh* | Dr. Ranjith Kumar, *Chennai* | Dr. V T Haridas, *Thrissur*

|                                             |                                     |
|---------------------------------------------|-------------------------------------|
| Dr. Bitukaur Sodhi, <i>Thane</i>            | Dr. Nitin Agrawal, <i>Bengaluru</i> |

| 09:45 AM to 10:00 AM | Therapeutic Options in Pediatric Neurogenetic Disorders- New Horizons                             | Dr. Nagaraj A R, Bengaluru              |
| 10:00 AM to 10:15 AM | Case Based Discussions in Epilepsy: Clinic Based Pearls                                           | Dr. Jyotsna A S, Mysuru                 |
| 10:15 AM to 10:30 AM | Q&A                                                                                               | All Faculty                             |

**10:30 AM to 11:00 AM Tea Break**

**Saturday, 31<sup>st</sup> October 2026**

**Hall 4**

**04:30 PM to 05:30 PM**      **SESSION 37: Neuro-LOGIC**

Moderator : **Dr. S M Katrak, Mumbai**

Chairpersons: TBD

04:30 PM to 05:30 PM

Presenter

**Dr. S Meenakshi Sundaram,  
Madurai**

**05:30 PM to 06:00 PM**      **SESSION 39: Video Session**

Chairpersons: TBD

05:30 PM to 05:45 PM

Movement Disorder - Video Session

**Dr. Heli Shah, Ahmedabad**

05:45 PM to 06:00 PM

Movement Disorder - Video Session

**Dr. Vijayashankar P, Chennai**

**Saturday, 31<sup>st</sup> October 2026**

**Hall 5**

**08:00 AM to 09:00 AM BREAKFAST SESSION 10: High Altitude and Neurology : When Altitude Affects the Mind**

|                      |                                                                                        |                                         |
|----------------------|----------------------------------------------------------------------------------------|-----------------------------------------|
| 08:00 AM to 08:15 AM | High Altitude Cerebral Edema and Atypical Neurological Manifestations of High Altitude | Col. (Dr.) Manish Bhartiya, Guwahati    |
| 08:15 AM to 08:30 AM | Cerebrovascular Events in High Altitude                                                | Lt. Col. (Dr.) Rajeev Ranjan, New Delhi |
| 08:30 AM to 08:45 AM | Navigating High Altitude: Risks for Pre-Existing Neurological Conditions               | Brig. (Dr.) Pawan Dhull, Chandigarh     |
| 08:45 AM to 09:00 AM | High Altitude Epilepsy                                                                 | Dr. Sanjay Saxena, New Delhi            |

**09:00 AM to 10:30 AM SESSION 31: Sleep: A Window to Neurological Disorders**

Convener: **Dr. Ravi Yadav, Bengaluru**

Chairpersons: **TBA**

|                      |                                                                                                                  |                              |
|----------------------|------------------------------------------------------------------------------------------------------------------|------------------------------|
| 09:00 AM to 09:15 AM | Hypersomnia in Neurology                                                                                         | Dr. Soaham Desai, Anand      |
| 09:15 AM to 09:30 AM | Understanding Parasomnias                                                                                        | Dr. Ravi Yadav, Bengaluru    |
| 09:30 AM to 09:45 AM | Circadian Rhythm & its Role in Neurological Disorders                                                            | Dr. Vibhor Pardasani, Mumbai |
| 09:45 AM to 10:00 AM | Recognising the Vulnerable Sleep Apneic Human Brain                                                              | Dr. Joy Desai, Mumbai        |
| 10:00 AM to 10:15 AM | The Paradigm Shift in Restless Legs Syndrome: Deprecating Dopamine Agonists & Navigating the New AASM Guidelines | Dr. Garima Pandey, Bhopal    |
| 10:15 AM to 10:30 AM | Q&A                                                                                                              | All Faculty                  |

**04:30 PM to 05:15 PM SESSION 38: Invited Talks**

Chairpersons: **TBD**

|                      |                                              |                                  |
|----------------------|----------------------------------------------|----------------------------------|
| 04:30 PM to 04:45 PM | Video Session                                | Dr. Balaji Gopalan, Chengalpattu |
| 04:45 PM to 05:00 PM | Headache Attributed to Arterial Hypertension | Dr. Vimal Paliwal, Lucknow       |
| 05:00 PM to 05:15 PM | Cardiac Cephalalgia                          | Dr. Manju Yadav, Vadodara        |

**Saturday, 31<sup>st</sup> October 2026**

**Hall 5**

**05:15 PM to 06:15 PM      SESSION 40: Neuropoetry**

Chairpersons: **TBD**

05:15 PM to 06:15 PM

Neuropoetry

Dr. Aveg Bhandari, *Indore*

**Saturday, 31<sup>st</sup> October 2026**

**Hall 6**

**08:00 AM to 09:00 AM Award Session 3: Best Research Paper in General Neurology**

Judges: TBD

|                      |                                                                                                                                                                           |                                              |
|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------|
| 08:00 AM to 08:10 AM | Brain Health Index: A Novel Unified Scoring In Dementia                                                                                                                   | Dr. Trisha Chatterjee, <i>Jodhpur</i>        |
| 08:10 AM to 08:20 AM | Efficacy of Anodal Transcranial Direct Current Stimulation of the Primary Motor Cortex in Chronic Migraine: A Randomised Double-Blind Sham-Controlled Study               | Dr. Ketan Bhatnagar, <i>New Delhi</i>        |
| 08:20 AM to 08:30 AM | The Fragmented Night: Polysomnographic Insights into CNS Demyelinating Disorders                                                                                          | Dr. Anjana Sankar, <i>Thiruvananthapuram</i> |
| 08:30 AM to 08:40 AM | Beyond Shunts and Optic Nerve Fenestration: Venous Sinus Stenting for Refractory Idiopathic Intracranial Hypertension                                                     | Dr. Arpit Agrawal, <i>Raipur</i>             |
| 08:40 AM to 08:50 AM | A Cross-Sectional Study on Assessment of Impairment of Social Cognitive Domain in Patients with Vascular Cognitive Impairment in a tertiary care institute.               | Dr. Satyadip Sarkar, <i>Kolkata</i>          |
| 08:50 AM to 09:00 AM | Clinical utility of blood-based biomarkers for biological diagnosis of Alzheimer's disease and therapeutic eligibility: Bridging the Diagnostic Gap in the Indian context | Dr. Faheem Arshad, <i>Bengaluru</i>          |

**09:00 AM to 11:30 AM Award Session 4: Dr. Surath Mohandas Award in Autoimmune Disorders | Prof M Gourie-Devi Award for the Best Paper in Neuromuscular Disorders | Madurai Academy of Neurology – Best Award Paper on Neuroinfections**

Judges: TBD

**09:00 AM to 10:00 AM Dr. Surath Mohandas Award in Autoimmune Disorders**

|                      |                                                                                                                                           |                                        |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------|
| 09:00 AM to 09:10 AM | Expanding the Clinical and Electrophysiological Spectrum of Autoimmune Nodopathies: A Single-Centre Series of 12 Antibody-Positive Cases  | Dr. Biva Bhakat, <i>Kolkata</i>        |
| 09:10 AM to 09:20 AM | Decoding the Invisible Storm: Autoimmune Encephalitis as a Neurocritical Emergency – Seronegative Burden, Prognostic Signals and Outcomes | Dr. Pooja Rani, <i>Jind</i>            |
| 09:20 AM to 09:30 AM | Autoimmune Nodopathies-Clinical Heterogeneity & Prognostic Markers                                                                        | Dr. Anand V, <i>Jodhpur</i>            |
| 09:30 AM to 09:40 AM | Comparative Assessment of Health-Related Quality of Life & Short-Term Treatment Outcomes in CIDP & Autoimmune Nodopathies                 | Dr. Sowmya Kallu, <i>Hyderabad</i>     |
| 09:40 AM to 09:50 AM | Blur to Beyond - A Study on Clinical and Radiological Profile in Assesment of Prognosis of Demyelinating Optic Neuritis                   | Dr. Nikhil Kumar D G, <i>Davangere</i> |

**Saturday, 31<sup>st</sup> October 2026**

**Hall 6**

09:50 AM to 10:00 AM

Diagnostic Performance of Serum and CSF Immunoglobulin G Subclass 4 (IgG4) in Central Nervous System Inflammatory Disorders: A Prospective Case-Control Study

Dr. Bhumika Goyal,  
*Chandigarh*

10:00 AM to 10:50 AM

**Prof. M Gourie-Devi Award for the Best Paper in Neuromuscular Disorders**

10:00 AM to 10:10 AM

From Framework to Solutions: Validation and Real-World Utility of a Novel Tri-Axis Classification for Genetic Myopathies

Dr. Shamisha Shashank Khade,  
*Mumbai*

10:10 AM to 10:20 AM

RitUximab in Guillain-Barre sYndrome (RUGBY) trial: a Single Centre, Double-Blind, Randomized Phase 3 Trial

Dr. Farsana Mustafa,  
*New Delhi*

10:20 AM to 10:30 AM

Precision Medicine Approach for Studying Congenital Myasthenic Syndromes Using Patient-Specific iPSC models.

Dr. Bhaswar Bhattacharya,  
*Kolkata*

10:30 AM to 10:40 AM

Clinical Spectrum and Neuropathic Correlates in Paraproteinemic Neuropathy: A Multicentric Retrospective Cohort Study

Dr. Prashanth Poulose,  
*Thrissur*

10:40 AM to 10:50 AM

Clinical Profile and Response to Steroids in Brachial Plexopathy: A Prospective Cohort Study

Dr. Animesh Das, *New Delhi*

10:50 AM to 11:30 AM

**Madurai Academy of Neurology – Best Award Paper on Neuroinfections**

10:50 AM to 11:00 AM

Clinico-Radiological Phenotypes, Diagnostic Challenges and Outcomes of Neuromelioidosis from a Tertiary Centre in Southern India

Dr. Hariswar Pari, *Pondicherry*

11:00 AM to 11:10 AM

The Role of Infliximab in cases of Central Nervous System Tuberculosis with Paradoxical Response: A Prospective Study from a Tertiary care Center.

Dr. Kshipra Vidyadhar Nilkanth,  
*Pune*

11:10 AM to 11:20 AM

Assessment Of White Matter Structural Integrity in Subacute Sclerosing Panencephalitis (SSPE) Using Diffusion Tensor Imaging and Comparison with Age and Gender Matched Controls- A Cross Sectional Study.

Dr. Anuran Mukherjee,  
*Guwahati*

11:20 AM to 11:30 AM

Progressive Multifocal Leucoencephalopathy In Human Immunodeficiency Virus/ Acquired Immunodeficiency Syndrome

Dr. Rajarshi Chakraborty,  
*Lucknow*

**Saturday, 31<sup>st</sup> October 2026**

**Hall 6**

**01:30 PM to 02:30 PM Award Session 5: IAN - G.Arjundas - K. Jagannathan Award for Stroke**

Judges: TBD

|                      |                                                                                                                                                                                             |                                              |
|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------|
| 01:30 PM to 01:40 PM | Embollic Stroke of Undetermined Source (ESUS) in elderly acute ischemic stroke population and its association with atrial cardiopathy: A single-centre cross-sectional study from India     | Dr. Sohini Chakraborty, <i>Kolkata</i>       |
| 01:40 PM to 01:50 PM | Characteristics of Thrombus Histology in Acute Ischemic Stroke Undergoing Mechanical Thrombectomy: Correlation with Stroke Aetiology                                                        | Dr. Khaleel Rahman K, <i>Tirur</i>           |
| 01:50 PM to 02:00 PM | The Great Recanalization Debate in Acute Ischemic Stroke-Direct Thrombectomy versus Bridging Therapy A Meta-analysis of Randomized Controlled Trials                                        | Dr. Pradeep Kant Kumar, <i>New Delhi</i>     |
| 02:00 PM to 02:10 PM | Clinical Outcomes and Vessel Wall Imaging Characteristics of Non-Atherosclerotic Focal Stenotic Vasculopathy in Young Stroke: A Descriptive Observational Study from a Tertiary Care Centre | Dr. Sunetra Dilip Phulsunge, <i>Mumbai</i>   |
| 02:10 PM to 02:20 PM | Radiological Cure vs Clinical Recovery in CVT-Associated Dural Arteriovenous Fistulas: A 10-Year Endovascular Cohort Study                                                                  | Dr. Sujoy Kabiraj, <i>Kolkata</i>            |
| 02:20 PM to 02:30 PM | Effect of Anodal Transcranial Direct Current Stimulation on Naming in Subacute Post-Stroke Aphasia                                                                                          | Dr. Iftikar Shamsuddin Khadas, <i>Mumbai</i> |

**04:30 PM to 06:10 PM Award Session 6: IAN - A V Srinivasan-Deepak Arjundas Award for Neurogenetics | Kameshwar Prasad Award for Best Paper in Neuroepidemiology & Evidence Based Neurosciences | M V Padma Srivastava Award for Best Paper in Critical Care Neurology**

Judges: TBD

**04:30 PM to 05:00 PM IAN - A V Srinivasan – Deepak Arjundas Award for Neurogenetics**

|                      |                                                                                                                                            |                                          |
|----------------------|--------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------|
| 04:30 PM to 04:40 PM | Genotype-Phenotype Profile of Primary Mitochondrial Disorders form Tertiary Referral Centre in India                                       | Dr. Olivia Thomas, <i>Kottayam</i>       |
| 04:40 PM to 04:50 PM | Genetic Spectrum and Clinico-Genetic Correlations in Early-Onset Parkinson's Disease: Experience from a Tertiary Care Centre               | Dr. Subhajit Roy, <i>Bengaluru</i>       |
| 04:50 PM to 05:00 PM | The Utility of Genetic Testing In Predicting Long Term Electroclinical Outcomes in Drug Resistant Childhood Epilepsy of Uncertain Etiology | Dr. Surabhi P, <i>Thiruvananthapuram</i> |

**Saturday, 31<sup>st</sup> October 2026**

**Hall 6**

**05:00 PM to 05:10 PM MV Padma Srivastava award for Best Paper in Critical Care Neurology**

|                      |                                                                          |                                  |
|----------------------|--------------------------------------------------------------------------|----------------------------------|
| 05:00 PM to 05:10 PM | Utility of a 1 Hour EEG in the Critical Care Setting-a Prospective Study | Ms. Kiruthika Vijayakumar, Salem |
|----------------------|--------------------------------------------------------------------------|----------------------------------|

**05:10 PM to 06:10 PM Kameshwar Prasad Award for Best Paper in Neuroepidemiology & Evidence Based Neurosciences**

|                      |                                                                                                                                                |                                      |

| 05:10 PM to 05:20 PM | Evolving Epidemiology of Stroke in India: Burden, Inequalities, and Risk Factors from 1990 to 2023 with Projections to 2035                    | Dr. Pradeep Kant Kumar, New Delhi    |
| 05:20 PM to 05:30 PM | Cognitive and Evoked Potential Profiles in Patients Receiving Treatment for Primary Demyelinating Disorders: A Prospective Observational Study | Dr. Debasis Maity, Midnapore         |
| 05:30 PM to 05:40 PM | Spectrum of Corpus Callosum Involvement in a Tertiary Care Hospital in Eastern India                                                           | Dr. Sreyashi Dutta, Kolkata          |
| 05:40 PM to 05:50 PM | Neurofilament Light Chain as a Biomarker of Severity and Outcome in Guillain Barre Syndrome: A Translational Cohort Study                      | Dr. Deepinder Kaur Maini, New Delhi  |
| 05:50 PM to 06:00 PM | Fluoride Endemicity as a Possible Environmental Risk Modifier in Idiopathic Parkinson's Disease                                                | Dr. Ashutosh Kumar Mishra, Raebareli |
| 06:00 PM to 06:10 PM | Effectiveness and Safety of Rituximab versus Ocrelizumab in Multiple Sclerosis: A Systematic Review and Meta-Analysis                          | Dr. Prachi Mohapatra, New Delhi      |

**Sunday, 1<sup>st</sup> November 2026**

**Hall 1**

**08:00 AM to 09:00 AM BREAKFAST SESSION 11: Movement Disorders**

Chairpersons: **TBA**

|                      |                                                     |                                         |
|----------------------|-----------------------------------------------------|-----------------------------------------|
| 08:00 AM to 08:15 AM | Decoding Myths of Gait Freezing                     | Dr. Vaibhav Mathur, <i>Jaipur</i>       |
| 08:15 AM to 08:30 AM | DBS for Dystonia                                    | Dr. Aditya Gupta, <i>Gurugram</i>       |
| 08:30 AM to 08:45 AM | SCA-12: Present Understanding and Future Directions | Dr. Hrishikesh Kumar, <i>Kolkata</i>    |
| 08:45 AM to 09:00 AM | Bowel & Bladder Dysfunction in Parkinson's          | Dr. Anand Keshav Awasthi, <i>Jaipur</i> |

**09:00 AM to 09:45 AM ORATION 5: Prof. N H Wadia Oration**

Chairpersons: **TBA**

|                      |                                    |                               |
|----------------------|------------------------------------|-------------------------------|
| 09:00 AM to 09:05 AM | Introduction of Dr. Kailash Bhatia | TBD                           |
| 09:05 AM to 09:40 AM | TBD                                | Dr. Kailash Bhatia, <i>UK</i> |
| 09:40 AM to 09:45 AM | Felicitation                       | TBD                           |

**09:45 AM to 10:30 AM SESSION 41: CPC**

Chairpersons: **TBD**

|                      |                     |                                          |
|----------------------|---------------------|------------------------------------------|
| 09:45 AM to 09:55 AM | Neuro Pathologist   | Dr. Anita Mahadevan, <i>Bengaluru</i>    |
| 09:55 AM to 10:20 AM | Clinical Discussant | Dr. PN Sylaja, <i>Thiruvananthapuram</i> |
| 10:20 AM to 10:30 AM | Discussion          | All Faculty                              |

**10:30 AM to 11:00 AM Tea Break**

Sunday, 1<sup>st</sup> November 2026

Hall 1

11:00 AM to 12:30 PM SESSION 42: **Neuro-ophthalmology for the Practicing Neurologist**

Convener: Dr. Karthik Vinay Mahesh, *Chandigarh*

Chairpersons: TBA

|                      |                                                                                |                                    |
|----------------------|--------------------------------------------------------------------------------|------------------------------------|
| 11:00 AM to 11:15 AM | Optic Neuritis Update                                                          | Dr. Sujit Kumar, <i>Bengaluru</i>  |
| 11:15 AM to 11:30 AM | Higher Visual Function Disorders                                               | Dr. James Jose, <i>Kozhikode</i>   |
| 11:30 AM to 11:45 AM | Investigations in Neuro-Ophthalmology – What Neurologists can't Afford to Miss | Dr. Riya Sharma, <i>Jaipur</i>     |
| 11:45 AM to 12:00 PM | IIH Update (New Criteria, OCT Follow-up, Newer Therapies)                      | Dr. Shrivarthan R, <i>Chennai</i>  |
| 12:00 PM to 12:15 PM | Neuroophthalmological Emergencies in the Golden Hour                           | Dr. Monika Singla, <i>Ludhiana</i> |
| 12:15 PM to 12:30 PM | Q&A                                                                            | All Faculty                        |

12:30 PM to 1:30 PM **Valedictory Session**

01:30 PM Onwards

Lunch

**Sunday, 1<sup>st</sup> November 2026**

**Hall 2**

**08:00 AM to 09:00 AM BREAKFAST SESSION 12: Epilepsy**

Chairpersons: TBD

|                      |                                                                               |                                   |
|----------------------|-------------------------------------------------------------------------------|-----------------------------------|
| 08:00 AM to 08:15 AM | Epilepsy 2035                                                                 | Dr. Balveen Singh, Jaipur         |
| 08:15 AM to 08:30 AM | Rural Epilepsy Camps – A Model for Community Neurology                        | Dr. Rajendra Kumar Sureka, Jaipur |
| 08:30 AM to 08:45 AM | Epilepsy Treatment in Newly Diagnosed Epilepsy – What is the Optimal Strategy | Dr. Neera Choudhary, New Delhi    |
| 08:45 AM to 09:00 AM | Current Classification of Epilepsy                                            | Dr. Priya Agarwal, Jaipur         |

**11:00 AM to 12:30 PM SESSION 43: Alzheimer's Disease in Transition: Redefining Diagnosis & Management**

Convener: Dr. Suman Kushwaha, New Delhi

Chairpersons: TBD

|                      |                                                                      |                                            |
|----------------------|----------------------------------------------------------------------|--------------------------------------------|
| 11:00 AM to 11:15 AM | Shifting Focus from Symptomatic Diagnosis to Preclinical & Prodromal | Dr. Suman Kushwaha, New Delhi              |
| 11:15 AM to 11:30 AM | Imaging Biomarkers for Early Diagnosis of AD                         | Dr. Ramshekhar N Menon, Thiruvananthapuram |
| 11:30 AM to 11:45 AM | Early Linguistic Markers for AD Diagnosis                            | Dr. Amitabha Ghosh, Kolkata                |
| 11:45 AM to 12:00 PM | Lifestyle & Preventive Approach for AD                               | Dr. Ratnavalli Ellajosyula, Mysuru         |
| 12:00 PM to 12:15 PM | Anti Amyloid Therapy in India - Where We Stand                       | Dr. Suvarna Alladi, Bengaluru              |
| 12:15 PM to 12:30 PM | Q & A                                                                | All Faculty                                |

**Sunday, 1<sup>st</sup> November 2026**

**Hall 3**

**08:00 AM to 09:00 AM BREAKFAST SESSION 13: The Expanding Pharmacopoeia: Essential New Drug Classes for the Neurologist**

Convener: **Dr. K Manoj Kumar, Visakhapatnam**

Chairpersons: **TBA**

|                      |                                                                |                                             |
|----------------------|----------------------------------------------------------------|---------------------------------------------|
| 08:00 AM to 08:15 AM | Immune Checkpoint inhibitors - What a Neurologist Should Know? | Dr. K Manoj Kumar, Visakhapatnam            |
| 08:15 AM to 08:30 AM | GLP-1 Receptor Agonists - What a Neurologist Should Know?      | Dr. S M Krishna Mohan Mavuru, Visakhapatnam |
| 08:30 AM to 08:45 AM | JAK Inhibitors - What a Neurologist Should Know?               | Dr. Harish Chandika, Ponneri                |
| 08:45 AM to 09:00 AM | FcRN Inhibitors - What a Neurologist Should Know?              | Dr. Bala Pradeep Boyidapu, Visakhapatnam    |

**11:00 AM to 12:30 PM SESSION 44: Neuroimmunology – Antibodies to Therapeutics**

Chairpersons: **TBD**

|                      |                                                                                   |                                      |
|----------------------|-----------------------------------------------------------------------------------|--------------------------------------|
| 11:00 AM to 11:15 AM | GFAP Cytopathies: Overview                                                        | Dr. Arindham Ghosh, Kolkata          |
| 11:15 AM to 11:30 AM | Managing The Smoldering MS : When MRI Tells only Half The Story                   | Dr. Kadam Nagpal, New Delhi          |
| 11:30 AM to 11:45 AM | The Antibody-Negative Encephalitis Dilemma: When to Treat & When to Wait          | Dr. Swayam Prakash, Siliguri         |
| 11:45 AM to 12:00 PM | Novel Therapeutic Agents Repositioned for Neuroimmunological Disorders            | Dr. Reshma Sultana Shaikh, Hyderabad |
| 12:00 PM to 12:15 PM | Algorithms & Antibodies: Redefining the MS Horizon with AI & Cellular Engineering | Dr. Venkatraman Karthikeyan, Chennai |
| 12:15 PM to 12:30 PM | Q & A                                                                             | All Faculty                          |

**Sunday, 1<sup>st</sup> November 2026**

**Hall 4**

**08:00 AM to 09:00 AM BREAKFAST SESSION 14: Untapped Potential in Movement Disorders**

Convener: **Dr. Ruchika Tandon, Lucknow**

Chairpersons: **TBA**

|                      |                                                    |                                        |
|----------------------|----------------------------------------------------|----------------------------------------|
| 08:00 AM to 08:15 AM | Non-surgical Neuromodulation in Movement Disorders | Dr. Ruchika Tandon, <i>Lucknow</i>     |
| 08:15 AM to 08:30 AM | Movement Disorders Emergencies                     | Dr. Dinkar Kulshrestha, <i>Lucknow</i> |
| 08:30 AM to 08:45 AM | Genetic Aspects in Movement Disorders              | Dr. Anshika Srivastava, <i>Lucknow</i> |
| 08:45 AM to 09:00 AM | Surgical Neuromodulation in Movement Disorders     | Dr. Saurabh Nigam, <i>Kanpur</i>       |

**11:00 AM to 12:30 PM SESSION 45: Hyper-Acute & Reperfusion Frontiers in Acute Ischemic Stroke**

Convener: **Dr. Sandhya Manorenj, Thiruvananthapuram**

Chairpersons: **TBA**

|                      |                                                                                 |                                                    |
|----------------------|---------------------------------------------------------------------------------|----------------------------------------------------|
| 11:00 AM to 11:15 AM | Beyond Time Windows: Tissue-based Selection for Thrombolysis & Thrombectomy     | Dr. M Nirumal Khumar, <i>Chennai</i>               |
| 11:15 AM to 11:30 AM | Ultra-late Window Thrombectomy: Lessons from Recent Trials & Real-World Data    | Dr. Sinchu C Maniangatt, <i>Thiruvananthapuram</i> |
| 11:30 AM to 11:45 AM | Tenecteplase vs Alteplase: Are we ready for a Paradigm Shift in India?          | Dr. Sandhya Manorenj, <i>Thiruvananthapuram</i>    |
| 11:45 AM to 12:00 PM | Direct-to-Angiosuite Stroke Pathways: Evidence & Feasibility in Indian settings | Dr. Sanjaykumar Kaminwar, <i>Karimnagar</i>        |
| 12:00 PM to 12:15 PM | Thrombectomy in Medium & Distal Vessel Occlusions (MeVO, DMVO)                  | Dr. T Ashok Vardhan Reddy, <i>Hyderabad</i>        |
| 12:15 PM to 12:30 PM | Q & A                                                                           | All Faculty                                        |

**Sunday, 1<sup>st</sup> November 2026**

**Hall 5**

**08:00 AM to 09:00 AM BREAKFAST SESSION 15: Neurologic Complications of Cancer Therapy**

Convener: **Dr. Ashraf V V, Kozhikode**

Chairpersons: **TBA**

|                      |                                                                         |                                            |
|----------------------|-------------------------------------------------------------------------|--------------------------------------------|
| 08:00 AM to 08:15 AM | Neurologic Complications of Cancer Immunotherapy                        | Dr. Suresh Chandran CJ, Thiruvananthapuram |
| 08:15 AM to 08:30 AM | Neurologic Complications of Conventional Chemotherapy                   | Dr. Fiju Chacko, Thrissur                  |
| 08:30 AM to 08:45 AM | Neurologic Complications of Radiotherapy                                | Dr. Ashraf V V, Kozhikode                  |
| 08:45 AM to 09:00 AM | Neurological Complications of Paraneoplastic Disorders / Cancer Therapy | Dr. Sunit Shah, Jaipur                     |

**11:00 AM to 12:30 PM SESSION 46: Pediatric Neurology, Beyond Milestones**

Convener: **Dr. Shubhankar Mishra, Bhubaneswar**

Chairpersons: **TBA**

|                      |                                                                                           |                                    |
|----------------------|-------------------------------------------------------------------------------------------|------------------------------------|
| 11:00 AM to 11:15 AM | Neurological Manifestations in Inborn Errors of Immunity                                  | Dr. Leema Pauline, Chennai         |
| 11:15 AM to 11:30 AM | Role of Video EEG & Epilepsy Surgery in Children- Aiming a Seizure and Medicine Free Life | Dr. Ajay Goenka, Jaipur            |
| 11:30 AM to 11:45 AM | Autistic Regression with Epileptiform EEG (AREE) : Is it a New Epilepsy?                  | Dr. Shubhankar Mishra, Bhubaneswar |
| 11:45 AM to 12:00 PM | Focal Cerebral Arteriopathy: Common Cause of Pediatric Stroke                             | Dr. Prateek Kumar Panda Rishikesh  |
| 12:00 PM to 12:15 PM | Beyond Milestones: An Approach to Children with Cognitive & Motor Regression              | Dr. S Velusamy, Chennai            |
| 12:15 PM to 12:30 PM | Q & A                                                                                     | All Faculty                        |

**Sunday, 1<sup>st</sup> November 2026**

**Hall 6**

**08:00 AM to 09:00 AM Award Session 7: IAN - C.U.Velmurugendran -U Meenakshisundaram Award for Movement Disorders**

Judges: TBD

|                      |                                                                                                                                                                                              |                                         |
|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------|
| 08:00 AM to 08:10 AM | Assessment of Prevalence & Clinical Correlates of Fear of Falling & Fear of Falling Avoidance Behavior in Patients with Parkinson Plus Syndromes & their Comparison with Parkinson's Disease | Dr. Kaniti Sowjanya, Hyderabad          |
| 08:10 AM to 08:20 AM | Effect of High Frequency rTMS (Repetitive Transcranial Magnetic Stimulation) on Freezing of Gait in Patients with Parkinsonism: A Randomised Controlled Trial                                | Dr. Bijayalaxmi Panda, Berhampur        |
| 08:20 AM to 08:30 AM | Spectrum of Movement Disorders in Seropositive & Seronegative Autoimmune Encephalitis: A Cross-sectional Study                                                                               | Dr. Chaithra Rajanna, Bengaluru         |
| 08:30 AM to 08:40 AM | Clinical and Genetic Spectrum of Hereditary Chorea: A Stepwise Diagnostic Approach                                                                                                           | Dr. Archita Makharia, Gurugram          |
| 08:40 AM to 08:50 AM | Retinal Structural Alterations as Biomarker of Neurodegeneration in Early-Onset Parkinson's Disease: A Prospective Study Using Optical Coherence Tomography                                  | Dr. Subhajit Roy, Bengaluru             |
| 08:50 AM to 09:00 AM | Spectrum of Non-Epileptic Acquired Ocular movement Disorders in Children - A single Centre Prospective Observational study in a Tertiary care Hospital in South India                        | Dr. Shree Shruthi Badrinath, Puducherry |

**10:30 AM to 12:00 PM Award Session 8: Best Research Paper in Epilepsy | Neurologists' Association of Tiruchirappally Annual Award for Laboratory Research in Neuroscience**

Judges: TBD

**10:30 AM to 11:30 AM Best Research Paper in Epilepsy**

|                      |                                                                                                                                                   |                                   |
|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------|
| 10:30 AM to 10:40 AM | Determinants of Long-Term Remission & Resolution of Epilepsy in Patients with Malformations of Cortical Development & Epilepsy                    | Dr. Deepak Chadha, Patiala        |
| 10:40 AM to 10:50 AM | Optimizing Therapy in Recurrent Seizures: Add-on Anti-Seizure Medication versus Dose Escalation—A Randomized Controlled Trial                     | Dr. Biva Bhakat, Kolkata          |
| 10:50 AM to 11:00 AM | Clinical, Biochemical & EEG Power Spectral Analysis as Predictors of Cognitive Dysfunction in Patients with Cerebral Small Vessel Disease         | Dr. Arjun Ajith Kumar, Kozhikode  |
| 11:00 AM to 11:10 AM | Comparing Outcomes of Epilepsy Patient Follow-Up Care with & Without a Checklist – A Randomised Control Trial                                     | Dr. Vaibhav Bhandari, Bundi       |
| 11:10 AM to 11:20 AM | Beyond Seizure Freedom: Long-Term Functional & Social Outcomes & Their Predictors After Hemispherotomy for Drug-Resistant Unihemispheric Epilepsy | Dr. Nandana J, Thiruvananthapuram |

**Sunday, 1<sup>st</sup> November 2026**

**Hall 6**

11:20 AM to 11:30 AM

Impact of Anti-Seizure Medication Regimen & Seizure Freedom on Quality of Life in Adults with Epilepsy: A Cross-Sectional Study from a Tertiary Care Centre

Dr. Nishat Ahmed, *Bikaner*

11:30 AM to 12:00 PM

**Neurologists' Association of Tiruchirappally Annual Award for Laboratory Research in Neuroscience**

11:30 AM to 11:40 AM

Surface EMG as a Precision Tool for Early Detection of Oropharyngeal Dysphagia in Parkinsonism

Dr. Sasank Parimi, *Chennai*

11:40 AM to 11:50 AM

Novel Cytokine Ratios & B-Cell Chemokines As Diagnostic Markers for Primary CNS Lymphoma

Mrs. Sofia Singh, *Chandigarh*

11:50 AM to 12:00 PM

Comparative Efficacy of Repetitive Transcranial Magnetic Stimulation Versus Propranolol in Prevention of Episodic Migraine: A Randomized Double-Blind Placebo-Controlled Study

Dr. Anand Vardhan, *Varanasi*

Thursday, 29<sup>th</sup> October 2026

## E-Poster Schedule

Thursday, 29<sup>th</sup> October 2026

Kiosk 1

| Judging                                     | Abstract Title                                                                                                               | Presenting Author                            |
|---------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------|
| During Lunch Break                          | Tolvaptan-Induced Metabolic Alkalosis in Tubercular Meningoencephalitis with SIADH: an Unusual and Reversible Adverse Effect | Dr. Varun Kumar Singh, <i>Varanasi</i>       |
|                                             | From Peripheral Nerves to Brain: AL Amyloidosis in Monoclonal Gammopathy of Neurological Significance                        | Dr. Pratishtha Sengar, <i>Varanasi</i>       |
|                                             | OPA1 Gene Mutation in a Young Lady                                                                                           | Dr. Santosh Trivedi, <i>Kolkata</i>          |
|                                             | Dawson's Fingers but Not MS: A Case Series of Diagnostic Mimics                                                              | Dr. Koppolu Pranathi, <i>New Delhi</i>       |
|                                             | Expanding the Phenotype of Statin-Naïve Anti-HMGCR Myopathy                                                                  | Dr. Vikas Lakhanpal, <i>Una</i>              |
|                                             | TB: The Total Body Traveler                                                                                                  | Dr. Naveen Prabu, <i>Coimbatore</i>          |
|                                             | Protean Manifestations of Anti - Neurofascin Associated Nodopathies                                                          | Dr. S Vijayalekshmi, <i>Thiruvalla</i>       |
|                                             | Multiple Cerebral Infarcts with Incidental Myositis - a Rare Clinical Confluence Which May Be Related                        | Dr. S Vijayalekshmi, <i>Thiruvalla</i>       |
|                                             | Clinical Suspicion - a Cue To Retest Insights From Two Cases of Cerebral Venous Thrombosis                                   | Dr. S Vijayalekshmi, <i>Thiruvalla</i>       |
| Afternoon Tea Break                         | A Treatable Mimicker of Creutzfeldt–Jakob Disease: Neurological Whipple Disease with Myoclonus and Parkinsonism              | Dr. Dolly Agrawal, <i>Raipur</i>             |
|                                             | Pseudo-Conduction Block In Vasculitic Neuropathy                                                                             | Dr. Saravana Sukriya S, <i>Coimbatore</i>    |
|                                             | One Disease, Multiple Faces- Spectrum of Presentations of Craniocervical Arterial Dissections                                | Dr. Priyamvada Singh, <i>Udupi</i>           |
|                                             | Steroid-Responsive Brainstem Inflammation: a Case of Clippers                                                                | Dr. Iftikar Shamsuddin Khadas, <i>Mumbai</i> |
|                                             | A Middle-Aged Male with Weight Loss, Weakness and Autonomic Dysfunction - Expect The Unexpected                              | Dr. Iftikar Shamsuddin Khadas, <i>Mumbai</i> |
|                                             | Bridges That Break The Mind: Network Clues in Ad, Bvftd & Dlb                                                                | Dr. Debasis Maity, <i>Midnapore</i>          |
| Life-Saving Therapy, Life-Altering Toxicity | Life-Saving Therapy, Life-Altering Toxicity                                                                                  | Dr. Srivathsa Bhat, <i>Kasargod</i>          |

| Judging             | Abstract Title                                                                                                                                                                                             | Presenting Author                                    |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------|
| During Lunch Break  | When the Body Attacks the Mind: Deciphering the Clinical and Serological Spectrum of Neural Antibodies in Autoimmune Encephalitis                                                                          | Dr. Sanmita Ram S, <i>Bengaluru</i>                  |
|                     | When Stroke and Proptosis Converge: Bilateral Internal Carotid Fibromuscular Dysplasia with Sequential Bilateral Carotid–Cavernous Fistulas in a Young Woman                                               | Dr. Akash Jatin Jani, <i>Ahmedabad</i>               |
|                     | Anti-GQ1b Antibody Positive Ocular Flutter–Myoclonus–Ataxia Syndrome: Expanding the Central Nervous System Spectrum of Anti-Ganglioside Autoimmunity                                                       | Dr. Vishwajeet Dalasukhbhai Raj, <i>Ahmedabad</i>    |
|                     | Dystonia Before Ataxia: Task-Specific Writer's Cramp as an Initial Presentation of Suspected SCA                                                                                                           | Dr. Daya Roselin Varghese, <i>Chennai</i>            |
|                     | Functional Outcomes Following Surgical Evacuation of Basal Ganglia Hypertensive Intracerebral Haemorrhage: A Single-Centre Observational Study                                                             | Dr. Hari Krishna Sai Pramodh Veliveli, <i>Guntur</i> |
|                     | Re-evaluating Positional Vertigo and Nystagmus: Five Non-BPPV Diagnoses Highlighting the Need for Broader Differential Thinking                                                                            | Dr. Vishal Gurunath Pawar, <i>Dubai</i>              |
|                     | Beyond Neurovascular Compression: Case Series of Secondary Vestibular Paroxysmia Due to Arachnoid Cyst, Stroke, and Multiple Sclerosis                                                                     | Dr. Vishal Gurunath Pawar, <i>Dubai</i>              |
|                     | CGRP-Based Treatment Approaches for Vestibular Migraine: Assessing Therapeutic Outcomes                                                                                                                    | Dr. Vishal Gurunath Pawar, <i>Dubai</i>              |
| Afternoon Tea Break | Tolerability and Effectiveness of Intravenous Immunoglobulin in Adult Myelin Oligodendrocyte Glycoprotein Antibody Disease: A Retrospective Cohort Study                                                   | Dr. Pradeep Lalwani, <i>Jodhpur</i>                  |
|                     | Circulating Inflammatory Biomarkers in Ischemic Stroke: Temporal Profiles and Prognostic Implications                                                                                                      | Dr. Sulena Sulena, <i>Faridkot</i>                   |
|                     | Functional Outcomes After Intravenous Thrombolysis with Tenecteplase in Acute Ischemic Stroke Presenting within 4.5 Hours & 4.5-9 Hours (extended Window Period) -A Prospective Observational Cohort Study | Dr. Ravipudi Lakshmi Ashitha, <i>Vijayawada</i>      |
|                     | Effect of Headache Frequency on Disability & Quality of Life in Patients with High Frequency Episodic Migraine & Chronic Migraine                                                                          | Dr. Gohil Ajayrajsinh, <i>Bhavnagar</i>              |
|                     | Mapping the Mind After Stroke: Does Lesion Volume or Initial Deficit Dictate 3-Month Multi-Domain Cognitive Impairment?                                                                                    | Dr. Neha Dinkar Mohite, <i>Pune</i>                  |
|                     | Two Unusual Cases of Progressive Cognitive Decline in Nmosd: Expanding The Phenotypic Spectrum                                                                                                             | Dr. Pavithra Ravi, <i>Namakkal</i>                   |
|                     | Phenotypic Variability in Hirayama Disease: Evidence for a Posture-Dependent Segmental Compression Model                                                                                                   | Dr. Mukul Kakria, <i>Ambala</i>                      |
